HENDRIX GENETICS

FOUNDERS OF FUTURE GENERATIONS

Hendrix Genetics is a global multi-species animal genetics company investing in technology, people and progress to deliver sustainable value to business partners, employees and society.

Hendrix Genetics has 4 divisions: ISA, the layer breeding division; Hybrid the turkey breeding division; Hypor the pig breeding division and SFPA, the poultry distribution division. Hendrix Genetics Research & Technology Centre supports the breeding divisions of the company with up to date expertise and technologies that are shared between the genetic selection programs of the various species.

Hendrix Genetics has around 1000 employees with a further 500 working in joint ventures. This Hendrix Genetics team combines 50 fully or partially owned companies in 22 countries around the world.

CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

Managing Perfection

Improve the quality of your hatching eggs

The hatching egg that has just been produced is perfect. But how do you make sure that this hatching egg stays perfect? That it is not too warm, that it stays clean and without cracks? In short, how do you manage the perfection of your hatching eggs? Ask Vencomatic. As the marketleader in managing perfection of hatching eggs they know how.

Call us for an appointment: +31 (0)497 – 517380

Add maximum value

to your process

Our company, a worldwide supplier of poultry processing systems, has the process knowledge and extended sales and service organization to equip and support you, adding maximum value to your process.

Working continuously on innovative technology, we are able to provide solutions for poultry lines up to 12,000 bph and systems to create the desired end products and packing.

We offer solutions for:

- Live bird supply
- Slaughtering, scalding and evisceration
- Chilling
- Cut-up and deboning
- X-ray bone detection
- Portioning and slicing
- Weighing, grading and batching
- Weigh price labeling
- Production control software
- Further processing

Nobilis® a *trusted* name in poultry vaccines

Infectious diseases can have a dramatic negative effect on flock performance and profitability. For decades Intervet has been a trusted partner in poultry production, delivering safe, effective and innovative disease solutions.

The Nobilis range of live and inactivated vaccines protects against a wide range of viral and bacterial diseases.

Vaccines such as Nobilis E.coli, Nobilis Salenvac T and Nobilis IB 4/91 have revolutionised poultry health worldwide, making the industry less vulnerable to risk whilst safeguarding profitability.

Intervet's continued commitment to research guarantees future vaccine development, which will protect your assets against the challenges of current and future disease threats.
