74% of plastic thermometer sheaths are perforated after use:,,

significantly increasing the threat of infection.

Minimize this risk with the Tempa•DOT® Single-Use Clinical Thermometer System

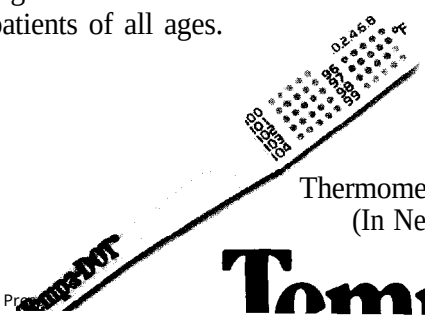

Sterile— each Tempa•DOT Thermometer is used only once and discarded, minimizing the risk of passing harmful microorganisms from patient to patient.

Accurate— innovative thermometric technology provides consistently exact readings. Proven on patients of all ages.

Fast— Tempa•DOT Thermometers give oral readings in just 60 seconds!

Versatile and Economical— suitable for oral, axillary and rectal use throughout the institution, no back-up system necessary. Costs no more than other systems.

For a free Tempa•DOT Thermometer trial, call 1-800-526-3538 (In New Jersey, call 908-526- 1222)

ARE YOU READY FOR OSHA?

"Time Is Running Out"
Employee Training
deadline–June 4, 1992

Sherwood Medical can help your health care facility comply with the OSHA rules regarding occupational exposure to bloodborne pathogens. Our new Value Added Training™ program is designed to teach all levels of health care employees how to use Universal Precautions for self-protection. It's comprehensive, easy to administer, and very effective. And most important, it meets the training, demonstration of mastery and documentation requirements of OSHA. Call Sherwood now and be ready for OSHA!

To find out more about Sherwood's Value Added Training program, call 1-800-367-5036.
