ARTICLES OF INTEREST

Murata, K. J., Dibblee, T. W., Jr., and Drinkwater, J. L. (1979) Thermal effects of large bodies of intrusive serpentinite on overlying Monterey Shale, southern Diablo Range, Cholame area, California: *U.S. Geol. Surv. Prof. Pap.* **1082,** 8 pp.

Sheppard, R. A. and Gude, A. J., 3rd (1980) Diagenetic fluorite in the Eastgate zeolite deposit, Churchill County, Nevada: *U.S. Geol. Surv. Open-File Rept.* **80-506,** 8 pp.

Subramanian, S., compiler (1979) International Seminar on Lateritisation Processes: Abstracts of 120 papers presented, Trivandrum, India, Dec. 1979, IGCP Project 129, Geol. Surv. India, Hyderabad, 138 pp.

Tourtelot, H. A. (1979) Geochemical surveys in the United States in relation to health: *Phil. Trans. Roy. Soc. London* **B-288,** 113–125.

Vaughan, D. E. W. and Lussier, R. J. (1980) Preparation of molecular sieves based on pillared interlayered clays (PILC): in *Proceedings of the Fifth International Conference on Zeolites,* L. V. C. Rees, ed., Heyden, London, 94–101.

Weaver, C. E. (1979) Geothermal alteration of clay minerals and shales: Diagenesis: *Tech. Rept.* **ONWI-21,** Georgia Institute of Technology, for Battelle Office of Nuclear Waste Isolation, 176 pp. (Available from U.S. Dept. Commerce, Nat. Tech. Inform. Serv., $9.00).

MEETINGS OF INTEREST

European Clay Groups, 4th Meeting, Freising, Germany, September 8–10, 1980. (further information: Udo Schwertmann, Institut für Bodenkunde, Technische Universität München, 8050 Freising-Weihenstephan, Germany).

Minerals and Chemicals in Drilling Muds, Houston, Texas, September 11–12, 1980. (further information: Peter Harben, Industrial Minerals, 708 Third Avenue—suite 2303, New York, New York 10017).

The Clay Minerals Society, 17th annual, Baylor University, Waco, Texas, October 5–9, 1980. (further information: J. L. McAtee, Jr., Chemistry Department, Baylor University, Waco, Texas 76703).

Geology of Industrial Minerals, 17th annual forum, Albuquerque, New Mexico, May 13–15, 1981. (further information: G. S. Austin, New Mexico Bureau of Mines, Campus Station, Socorro, New Mexico 87801).

7th International Clay Conference, Bologna and Pavia, Italy, September 6–12, 1981. (further information: Fernando Veniale, Istituto di Mineralogia Petrografia, Universita di Pavia, via Bassi 4, 27100 Pavia, Italy).
