INSTRUCTIONS FOR AUTHORS

Organization of Scientific Papers

Abstract—Concise summaries in the following format: **Introduction:** need for the study; **Hypothesis**: what was tested (experimental studies only) If qualitative, statement of problem addressed; **Methods:** summary of methods used with subsections as appropriate (type of subjects, number of subjects, study design, statistical tests; **Results:** summary of principal findings; **Conclusion:** implications of findings. If the work is qualitative, the types of instruments used and the scope and type of work must be annotated. If a disaster is involved, the dates, type, scope, location, and numbers of casualties and deaths must be summarized in tabular form for indexing. Do not exceed 375 words.

Introduction—Provide justification for the effort with appropriate references annotated. If quantitative, the concluding sentence should define the hypothesis. If qualitative, the problem should be stated clearly.

Methods—Descriptive to a degree that other investigators would be able to reproduce the study. Statistical methods used must be annotated. Approval by an Institutional Review Committee must be included when appropriate.

Results—Results must be written in text and may be accompanied by tables and figures. The text must explain all data included in tables and figures, but should not be unnecessarily redundant. All direct results from the study must appear in this section. No discussion of the results may be included.

Discussion—The Discussion should provide an interpretation of the Results in terms of meaning and application. Results should not be repeated. Computations or extrapolations that may help explain the results may be provided. Limitations of the study should be defined and suggestions for future research should be included. References that support or negate explanations provided are appropriate.

Conclusion—The findings in terms of implications for the practice of prehospital, emergency, and/or disaster (humanitarian) medicine should be summarized in a few sentences.

General Submission Requirements

Manuscripts—Manuscripts are preferred in electronic form (disk, CD, or e-mail) with a cover letter, cover page and manuscript. However, if electronic format is not available, we will accept manuscripts in paper form only. Electronic format: the cover letter, cover page, and manuscript should be sent as separate electronic files on one diskette or CD in WordPerfect or Word as Rich text Format (RTF) files. Please label the diskette or CD and include the paper's title and the primary author's surname. Electronic files may be submitted to our office via e-mail to the following address: pdm@medicine.wisc.edu. If the manuscript is submitted by mail, please include paper version of the cover letter, cover page, and one paper copy of the manuscript to accompany the disk. If submitting the article in paper form only, please send 1 cover letter, the cover page and manuscript.

Previous Publication—A manuscript will be considered only if it has not been published previously and is not under consideration for publication elsewhere.

Copyrights—After acceptance for publication, the copyright to the manuscript rests with *Prehospital and Disaster Medicine.*

Cover Letter—Each manuscript should be accompanied by a cover letter from the primary author who attests to the original nature of the material, that the paper has not been published elsewhere, is not under consideration by any other publication, and that the authors agree to transfer copyright to *Prehospital and Disaster Medicine* if accepted for publication. The institution(s) in which the work was performed, the sponsoring institution(s), and the respective departments must be annotated. If the work was supported all or in part by grants or

endowments, the granting institution(s) should be indicated. If the paper has been, or is to be presented in a forum orally or as a poster, indicate the title of the forum, sponsoring institution, and the date of presentation. Specify the name of the author with whom any correspondence should be directed, and, correspondence street address, telephone number, telefacsimile (FAX) number, and e-mail address if appropriate.

Cover Page—Include a cover page that includes the title of the paper, first names, middle initials, last names, and highest academic degrees of all authors. Reiterate from the cover letter the name of the author with whom any correspondence should be directed and the street address, telephone number, telefacsimile (FAX) number, and e-mail address if appropriate. Do not indicate author names or institutions anywhere in the manuscript other than on the cover page.

Language—All manuscripts must be submitted in English.

Paper, Margins, and Type Style—Manuscripts should be submitted on plain white paper, letter size up to A4, 8.27" by 11.69" (210 mm by 297 mm). *Do not right justify the margins.* Use standard type styles. Do not use bold, italicized, superscript, or subscript characters, and make no extraneous marks on the printed manuscript page. Double space all text.

Keywords—On a separate page, show the title of the manuscript and eight or more key words or phrases to facilitate indexing or electronic searches.

Generic Names—Whenever possible, use generic names. Brand names may be indicated parenthetically and the name and location of the manufacturer must be provided in parentheses followed by a generic description of the medication, drug, product, or equipment. Also, do not use *We* or *Our* when describing the researchers. The fact that the research was conducted by the authors is implicit.

References—References should be cited in the sequential order in which they appear in the text. All references should be parenthetically cited by full-sized Arabic numbers in the text, tables, and legends for illustrations. Titles of journals referenced must be annotated using standard *Index Medicus* abbreviations and must be underscored. Unpublished data or personal communications should be indicated in parentheses directly following the reference and should include the dates of such correspondence (Personal Communication, Safar P, October 1989). The following format for references should be used:

Journals—White SJ, Hamilton WA, Veronesi JF: Comparison of field techniques used to pressure infuse intravenous fluids. Prehospital and Disaster Medicine 1991;6: 429–434.

Books—Schwartz GR, Safar P, Stone JH, et al, eds: Principles and Practice of Emergency Medicine. 2d ed. Philadelphia: W. B. Saunders Co., 1985, pp 1198–1202.

Chapters—Lindberg R: Pathology of Head Injuries. In: Cowley RA, Trump BF (eds), Pathophysiology of Shock. Baltimore: Williams and Wilkins, 1982, pp 588–592.

Website—International Crisis group: Impact of the Bali bombings. In: *Indonesia Briefing,* Jakarta/
Brussels, 24 October 2002.
Available at www.crisisweb.org/projects/asia/indonesia/reports/A400804_24102002.pdf. Accessed 09 June 2003.

Abbreviations—Abbreviations for groups of words may be used only for unusually cumbersome titles or for commonly accepted abbreviations. Whenever such abbreviations are used, they must be annotated with the initial mention of words within the manuscript followed by the abbreviation in parentheses. Standard scientific abbreviations may not be sub- or super-scripted.

Tables—Tables must be numbered as referenced in the text and each typed on a separate page, placed at the end of the manuscript. Do not include tables in the body of the text.

Figures—Illustrative materials must be of professional quality and camera ready (e.g., glossy camera-ready reproductions or PMTs). All such materials should be submitted as large as possible, up to 8.27" by 11.69" (A4 210 mm by 297 mm) and be at least **600 dpi resolution** for clarity when subsequently reduced to 3-inch margin size. Color illustrations must be discussed with the editor. Legends of figures are to be typed with double spacing on a separate page with reference to the number of the figure. The manuscript title, figure number, and an arrow to indicate the top of the illustration must be annotated on the back of each figure. All graphs, or charts submitted in an electronic format, must be at least **600 dpi**, and submitted in a PICT or JPG format. (Power Point or Excel graphs and charts must be saved in a PICT or JPG format.)

Permissions—Illustrations or tables from other publications must be accompanied by written permission from the author and publishers of the document in which they originally appeared. Computer generated figures must have a resolution of **600 dpi** or greater. jpeg format is preferred.

Publication Schedule—Manuscripts should be published within 6 to 9 months of acceptance and receipt of revisions.
