Faculty Position: A**ttending Physician, Department of Pediatrics, Division of Infectious Diseases, Mass General Brigham & Site Medical Director Infection Control Community, Mass General Brigham Infection Control**

The Division of Pediatric Infectious Diseases at Harvard Medical School and Mass General Brigham (MGB) Infection Control invite applications for a faculty position combining academic clinical work in Pediatric Infectious Diseases with leadership in Infection Prevention and Control. This unique role offers the opportunity to contribute to excellence in clinical care, infection prevention, and system-level quality and safety initiatives across the MGB network. The opportunity also provides an exceptional academic milieu with opportunities for collaboration, mentorship, research, and academic advancement.

The position includes two complementary components:

(1) Attending Physician, Pediatric Infectious Diseases (0.4 FTE) — providing inpatient consultative services and ambulatory care. The successful candidate will have expertise in managing complex infectious diseases in both acute care and outpatient settings. This role reports to the Chief, Division of Pediatric Infectious Diseases and Global Health.

(2) Site Medical Director, Infection Control (0.6 FTE) — a leadership role within MGB Infection Control, reporting to the Chief of Infection Control. The incumbent will be assigned a primary site in the Community Division of MGB as part of a site-based team to implement and sustain system-wide infection prevention strategies, provide clinical oversight, and participate in quality improvement initiatives. They will be part of a team of Infection Control Medical Directors providing system support to MGB sites and programs. Flexibility, empathy, and strong communication skills are essential.

The MGH Division of Pediatric ID and Global Health and MGB IC are committed to building a diverse team trained to deliver equitable, high-quality care. We seek candidates with a clear commitment to inclusivity, health equity, multidisciplinary collaborative care, and education and mentorship of trainees. Candidates must meet the requirements for appointment at the rank of Instructor, Assistant Professor, or Associate Professor of Pediatrics at Harvard Medical School with experience, training, and achievements in addition to teaching activities. Suitable candidates will have a Doctor of Medicine degree and be board-certified in Pediatric Infectious Diseases and experience in Infection Prevention and Control.

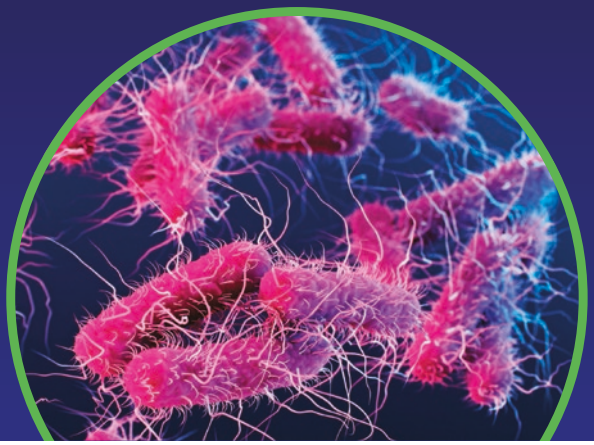

Interested candidates should apply via Workday which includes detailed job descriptions for both roles. For any further questions, please reach out to Jihan Scimemi, Executive Talent Acquisition Partner, Human Resources, Email: jscimemi1@mgb.org, Phone: 857-282-6443. The deadline for applications is **February 15, 2026** but will be accepted on a rolling basis.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
