DEMOCRATIC REPRESENTATION IN INTERNATIONAL ORGANIZATIONS

International organizations (IOs) play a central role in contemporary international law making: they institutionalize most of the processes through which international law is adopted today. From the perspective of the democratic legitimacy of international law, this raises the question of the conditions under which those IOs may be regarded as democratic representatives of their Member States' peoples. Curiously, given its important international and domestic stakes, however, the democratic representativeness of IOs, but also of States and other public and private institutions within those IOs does not seem to be much of a concern in practice. Even more curiously, and by contrast to other issues of democratic legitimacy it is necessarily related to, such as participation or deliberation inside IOs, representation has only rarely been addressed as such in scholarly debates. It is this gap in theory and practice that this volume purports to fill. It is the first one bringing global democracy theorists and international lawyers into dialogue on the topic and in English language. This title is also available as open access on Cambridge Core.

Samantha Besson holds the Chair Droit international des Institutions at the College of France, Paris and is Professor of Public International Law and European Law at the University of Fribourg (Switzerland). She is a member of the Institute of International Law and was co-Chair of the ILA Study Group on the International Law of Regional Organizations (2021–24).

ASIL Studies in International Legal Theory

Series Editors

Michael D. Cooper, American Society of International Law
Mortimer Sellers, University of Baltimore

Editorial Board

Samantha Besson, College of France & University of Fribourg
Allen Buchanan, Duke University
David Kennedy, Harvard University
Jan Klabbers, University of Helsinki
David Luban, Georgetown University
Larry May, Vanderbilt University
Mary Ellen O'Connell, University of Notre Dame
Helen Stacy, Stanford University
John Tasioulas, University of Oxford
Fernando Tesón, Florida State University

The purpose of the ASIL Studies in International Legal Theory series is to clarify and improve the theoretical foundations of international law. Too often the progressive development and implementation of international law has foundered on confusion about first principles. This series raises the level of public and scholarly discussion about the structure and purposes of the world legal order and how best to achieve global justice through law.

This series grows out of the International Legal Theory project of the American Society of International Law. The ASIL Studies in International Legal Theory series deepens this conversation by publishing scholarly monographs and edited volumes of essays considering subjects in international legal theory.

Books in the series

Democratic Representation in International Organizations Edited by Samantha Besson

States, Firms, and Their Legal Fictions: Attributing Identity and Responsibility to Artificial Entities Edited by Melissa J. Durkee

Rethinking the Relationship between International, EU and National Law Lando Kirchmair
