Business & Professional Ethics Journal

Mollie Painter-Morland, Editor

The *Business and Professional Ethics Journal* is a peer-reviewed forum for interdisciplinary research that explores the systemic causes of ethical challenges in business and professional life. The Journal provides an outlet for papers that make significant contributions to the development of alternative theories and practices within business and professional ethics, and that examine why global ethical issues, such as poverty alleviation and sustainability, emerge and persist.

To encourage research into the interaction between individuals, organizations and the socio-political and economic realities of which they are a part, the editors welcome submissions from many disciplines, including management and organization studies, philosophy, political economics, social psychology, sociology, religious studies, history, and anthropology.

Online access includes all issues, volume 1 (1981) to the present.
