Around here, Curiosity never takes a break.

It nags. It prods. It keeps us awake at night. It guides us to new places. It keeps us asking, and it reminds us that there's no such thing as a dumb question. It reveals new solutions, which in turn reveal new problems that will lead to newer solutions. And on and on it goes. Here, Curiosity inspires. Empowers.

It pushes us to theorize, to scrutinize, to analyze. And it teaches us that when we've finally arrived at our conclusions, we're really just getting started.

At Novus, we never rest. We never stop searching for new ways to improve production efficiencies. And we always remember that our success is built on two things—building strong relationships with our customers, and a commitment to providing them with the most innovative and practical solutions for their operation. To learn more, visit us online at www.novusint.com.

Managing Perfection

Improve the quality of your hatching eggs

The hatching egg that has just been produced is perfect. But how do you make sure that this hatching egg stays perfect? That it is not too warm, that it stays clean and without cracks? In short, how do you manage the perfection of your hatching eggs? Ask Vencomatic. As the marketleader in managing perfection of hatching eggs they know how.

Call us for an appointment: +31 (0)497 – 517380

PETERSIME
INCUBATORS & HATCHERIES

S-line

Single-stage incubators for maximum economic return

Designed to maximize your profit for life

- High chick output
- High uniformity
- Low labour, maintenance and energy costs
- Future proof

The solution for all your needs in terms of capacity, features and expandability.

Two product ranges:

AirStreamerPlus™
Standard model offering all essential functionalities and features of a modern single-stage incubator.

BioStreamer™
Top-of-the-range product adding an advanced user interface and autopilot functions based on Embryo-Response Incubation™ technology.

Add maximum value

to your process

Our company, a worldwide supplier of poultry processing systems, has the process knowledge and extended sales and service organization to equip and support you, adding maximum value to your process.

Working continuously on innovative technology, we are able to provide solutions for poultry lines up to 12,000 bph and systems to create the desired end products and packing.

We offer solutions for:

- Live bird supply
- Slaughtering, scalding and evisceration
- Chilling
- Cut-up and deboning
- X-ray bone detection
- Portioning and slicing
- Weighing, grading and batching
- Weigh price labeling
- Production control software
- Further processing

Nobilis® a *trusted* name in poultry vaccines

Infectious diseases can have a dramatic negative effect on flock performance and profitability. For decades Intervet has been a trusted partner in poultry production, delivering safe, effective and innovative disease solutions.

The Nobilis range of live and inactivated vaccines protects against a wide range of viral and bacterial diseases.

Vaccines such as Nobilis E.coli, Nobilis Salenvac T and Nobilis IB 4/91 have revolutionised poultry health worldwide, making the industry less vulnerable to risk whilst safeguarding profitability.

Intervet's continued commitment to research guarantees future vaccine development, which will protect your assets against the challenges of current and future disease threats.
