Reducing the hidden costs of nosocomial UTI

Are you even on the map?

The BARDEX® I.C. Foley Catheter can save your hospital up to $322,000 per year.[1]

There are over 900,000 NUTIs each year, costing an average of $3,800 apiece in non-reimbursable expenses.[2] These costs often remain hidden because of the complexity of tracking NUTIs.

The silver and hydrogel-coated BARDEX® I.C. Foley Catheter has been proven to reduce the incidence of costly NUTIs by 22-80%. The individual examples shown are just a few of the more than 500 success stories involving hospitals that significantly reduced infection rates – and costs – after converting to the BARDEX® I.C. system.

For more information on the BARDEX® I.C., contact your BARD Representative or call 1-800-526-4455. You can also visit our website at www.bardmedical.com.

Ingelwood, CA
11,381 annual admissions
Annual projected savings
$187,704
48% reduction in NUTI

Hawthorne, CA
5,000 annual admissions
Annual projected savings
$119,147
77% reduction in NUTI

Alexandria, LA
9,000 annual admissions
Annual projected savings
$192,598
62% reduction in NUTI

Hot Springs, Arkansas
12,000 annual admissions
Annual projected savings
$88,000
80% reduction in NUTI

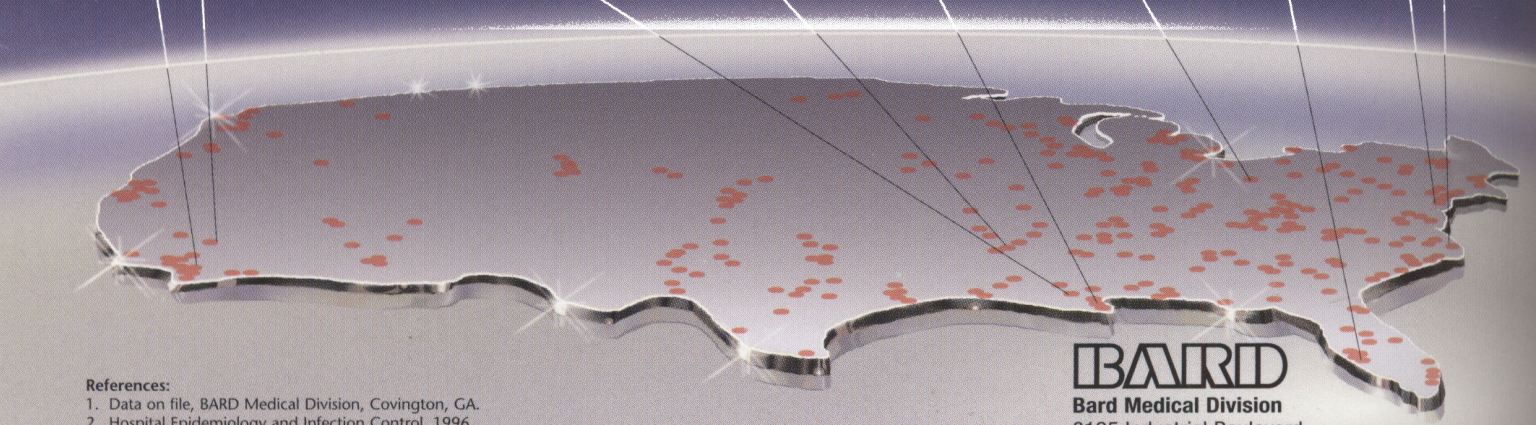

New Orleans, LA
9,871 annual admissions
Annual projected savings
$273,600
22% reduction in NUTI

Marietta, OH
6200 annual admissions
Annual projected savings
$242,000
68% reduction in NUTI

Tampa, FL
40,000 annual admissions
Annual projected savings
$321,834
36% reduction in NUTI

Baltimore, MD
8650 admissions
Annual projected savin
$50,000
45% reduction in NUT

Jersey City, New Jersey
18,000 annual admissio
Annual projected saving
$148,000
80% reduction in NUTI

All The Facts For Your Immunization Program

Immunizing Healthcare Workers: A Practical Approach

Edited by Gregory A. Poland, MD; William Schaffner, MD; Gina Pugliese, RN, MS

300 pp, Hard Cover, 2000, ISBN 1-55642-450-7, Order # 14507, **$109.00**

Both textbooks are an official publication of
The Society of Healthcare Epidemiology (SHEA).

Immunizing Healthcare Workers: A Practical Approach is the first complete resource for dealing with the immunization of healthcare workers. You can find all of the latest information on successfully and safely implementing or updating your immunization program in this landmark book.

Inside you will find that for each of the vaccine-preventable diseases among workers, there is a discussion of disease risks in the healthcare setting, vaccine recommendations, special administration strategies, safety issues, discussion of unresolved issues, and answers to commonly asked questions. There are also case studies of sample programs in specific settings.

This phenomenal book contains the latest rec mendations from the US Public Health Se Advisory Committees, Healthcare Infection C Practices Advisory Committee (HICPAC), an Advisory Committee on Immunization Pra (ACIP).

Read how the experts overcame obstacles setting up immunization programs in their healt settings. With over 45 contributors to 32 chap **Immunizing Healthcare Workers: A Prac Approach** is an essential source for the information necessary to implement an effe immunization program.

Some Case Study Topics:

- Immunizing Providers and Staff in Physicians' Offices
- Vaccination of Healthcare Workers in Long-Term Care Facilities for the Elderly
- Immunization of Affiliating Students and Contract Home Healthcare Workers
- Immunization Strategies for Home Healthcare Personnel
- Immunization of Workers with Altered Host Defenses
- Vaccinating Unimmunized and Partially Immunized Workers
- Assessing Immunity and Exposures: Using a Computerized Surveillance System
- Managing Information in an Immunization Program
- The Internet: A Quick Guide to Vaccine & Immunization Inform

You Can Declare War.

Or You Can Declare Victory.

Arm yourself with PREVACARE * Antimicrobial Hand Gel. A waterless product that combines persistent antimicrobial activity with skin moisturizers for use between hand washes.

Here's the weapon your facility needs to help win the war against nosocomial infections. PREVACARE* Antimicrobial Hand Gel is a unique, patented waterless surgical scrub and healthcare personnel handwash that demonstrates persistent antimicrobial activity between uses. PREVACARE* Antimicrobial Hand Gel eliminates 99.99% of pathogenic organisms in 15 seconds or less without water or towels, yet is gentle enough for frequent hand washes.

Declare victory over nosocomial infections with help from PREVACARE* Antimicrobial Hand Gel. To learn more about this product or the complete line of Johnson & Johnson Medical Skin Care products, call 1-800-255-2500. Or visit our website at www.prevacare.com

Be Part of the New VA

Epidemiologist Position, VHA Headquarters, Washington, D.C.

The Veterans Health Administration (VHA) is soliciting applications for an Epidemiology Program Director in the Office of Quality and Performance. The successful candidate must have a doctoral degree and demonstrated skill in health services research/administration or related field pertinent to the measurement and management of healthcare quality. The ability to effectively communicate with clinicians and administrators is necessary.

The successful candidate will also bring skill in utilizing large administrative databases to evaluate healthcare process measures and performance outcomes. This role requires substantial statistical and computer literacy. The ideal candidate possesses formal training in epidemiology and/or biostatistics, SAS, and familiarity with VHA clinical information systems. However, individuals with exceptional qualifications in quality management outside of healthcare with similar statistical and informatics backgrounds will also be considered.

The New VHA has used performance management to achieve remarkable progress in clinical care, setting healthcare benchmarks in many areas. VHA provides over 33 million outpatient visits and 800,000 hospitalizations through over 170 hospitals, 600 ambulatory clinics and other facilities as well as a staff of more than 14,000 physicians, 800 dentists, 40,000 nurses and many thousand additional health care professionals. As quality in healthcare is recognized as a national priority, this role offers an important opportunity to continue improving healthcare outcomes in the nations largest integrated healthcare system through developing and demonstrating systems for achieving benchmark performance.

Applicants must be U.S. citizens and possess a Ph.D. This position reports to the Chief Quality and Performance Officer in the VHA. Salary can range from 99,266 to 123,281.

Applicants should forward curriculum vitae and a statement of interest by close of business March 31, 2000 to:

Department of Veterans Affairs

Management Support Office (10 A2B)

Attn: Robert McQueeney

810 Vermont Avenue, NW

Washington, D.C. 20420
