Clays and Clay Minerals, 1969, Vol. 17, p. 195. Pergamon Press. Printed in Great Britain

NOTES AND NEWS

SUSTAINING MEMBERSHIPS

Article III, Section 6, of the By-Laws of the Clay Minerals Society defines Sustaining Members as follows. "Sustaining members shall be persons, institutions, or corporations who shall have contributed one hundred dollars ($100) or more in any one year to the Society to sustain the activities of the Society." There are now two categories of Sustaining Members. The Society is fortunate to have had since its outset a group of **Charter Sustaining Members** who have helped assure a sound financial base for the Society. These Charter Sustaining Members are listed on the inside of the front cover of this journal. This year for the first time the Society has a group of **Annual Sustaining Members**, who are helping with the year-to-year expenses of the Society. Interested members and friends are asked to contact the Treasurer for details.

The Clay Minerals Society is pleased to list below the 1969 Annual Sustaining Members to date.

A. P. Green Refractories Company
Dow Chemical Company
Dresser Magobar
Freeport Kaolin Company
Georgia Kaolin Company
Halliburton Company
Pan American Petroleum Company
Thiele Kaolin Company
Union Oil Company
United Sierra Division, Cyprus Mines Corp.

FINE PARTICLE SOCIETY

Applications for charter membership in the recently incorporated FINE PARTICLE SOCIETY are invited. The Society was formed to serve scientists and engineers who share a common interest in the physical and chemical properties of particulate matter. A periodical newsletter will be published initially; plans are also underway to provide an interdisciplinary abstract service or literature listing of papers, books, and reports dealing with the science and technology of fine particles. Preliminary arrangements have been made to entitle Society members to a discount on pertinent journal subscriptions. For further information, please write: Dr. S. Gebura, Secretary, FINE PARTICLE SOCIETY, P.O. Box 671, Wharton, New Jersey 07885.
