Information for Contributors

The policies and procedures presented here are reproduced in greater detail on the publisher's website: https://www.cambridge.org/core/journals/philosophy-of-science

Submission Method: All submissions must be made through the *Philosophy of Science* Editorial Manager website: https://www.editorialmanager.com/phos. All electronic files should be readable in Microsoft Word or formatted as TeX or LaTeX. (Special restrictions apply to TeX and LaTeX documents; please see the website for details.) Other correspondence with the editorial office may be sent to: journal@philsci.org or *Philosophy of Science*, Department of Philosophy, University of Washington, Box 353350, Seattle, WA 98195, USA.

Manuscripts: Submissions must not exceed 9,000 words, including abstract and footnotes, but not references; a word count must be submitted with each essay. Manuscripts should be submitted in a form suitable for blind review and should include an abstract of approximately 100 words. Authors are strongly encouraged to employ a clear, reader-friendly writing style.

Discursive footnotes (consecutively numbered) should be kept to a minimum. Simple citations can be made in the text, by citing author and year of publication (with page number if necessary); a bibliography should appear on a separate page at the end. A detailed guide to the reference style appears on the website.

Copyright: Manuscripts should be submitted to *Philosophy of Science* with the understanding that upon acceptance for publication an exclusive license to publish will be granted to the Philosophy of Science Association.

Book Reviews: Books intended for review should be sent to the address given above. Persons wishing to review a book should contact the editorial office.

Correspondence concerning PSA business matters should be addressed to Max Cormendy, Executive Director, Philosophy of Science Association, University of Cincinnati, Cincinnati, OH 45221 (e-mail: office@philsci.org). The Philosophy of Science Association website is at http://philsci.org.

Philosophy of Science

Contents

Articles

479 *Understanding Symptoms: Diagnosis, Cure, and Bodily Reintegration*
Helene Scott-Fordsmand

498 *Origin Explanation*
Christophe Malaterre

521 *Equivalent Theories and Ontological Commitment*
Alex LeBrun

541 *Reevaluating Heterogeneity in Evidence Synthesis*
Alkistis Elliott-Graves

561 *Ecological Rationality Without Externalism*
David Thorstad

586 *The Method of Hypotheses in Early Modern Natural Philosophy*
Alireza Fatollahi

607 *Carnapian Inductive Logic for Exponential Smoothing*
Simon M. Huttegger

631 *Diversity and Expertise in Binary Classification Problems*
Hein Duijf

655 *Excess Structure in the Constrained Hamiltonian Formalism*
Clara Bradley

675 *Unreasonable Doubt. How Strategic Science Skeptics Exploit the Argument from Disagreement*
Alexander Reutlinger

Book Reviews

696 Review of Mikkel Gerken *Scientific Testimony. Its Roles in Science and Society*
Katharina Bernhard

700 Review of Mauricio Suárez *Inference and Representation: A Study in Modeling Science*
Dana Matthiessen
