Ascension 1 By Colin

Ascension 1 is from a series of paintings exploring the artist's inner self and his struggles with social contact, using religious iconography located within the backdrop of surreal landscapes.

'Inspired by abstract artists such as Philip Guston, Franz Kline and Jackson Pollack, using classical influences from Caravaggio, Raphael and Botticelli, Colin attempts to translate the everyday angsts created by his Autism, into a contemplative visual dialogue.

Colin's award-winning artwork has been exhibited at venues worldwide, including the Southbank Centre in London, the Affordable Art Fair Hampstead, and the Superordinary Gallery in Brisbane.
