## Fighting Corruption in Public Procurement

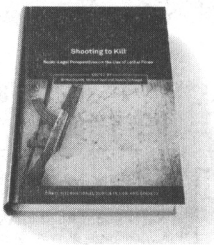

A Comparative Analysis of Disqualification or Debarment Measures

***Sope Williams-Elegbe***

Anti-corruption measures have firmly taken centre stage in the development agenda of international organisations as well as in developed and developing countries. One area in which corruption manifests itself is in public procurement and, as a result, States have adopted various measures to prevent and curb corruption in public procurement. One such mechanism for dealing with procurement corruption is to debar or disqualify corrupt suppliers from bidding for or otherwise obtaining government contracts. This book examines the issues and challenges raised by the debarment or disqualification of corrupt suppliers from public contracts.

# Foreword

From its beginning, the Society established as one of its primary functions the regular collection, publication, and dissemination of important international legal materials. These materials were first published as a section of the *American Journal of International Law*, and since the 1960s as the current stand-alone *International Legal Materials* publication. The publication met a critical need in that earlier era—when access to primary source legal materials was limited. Today, access to information is no longer a problem. Indeed, our challenge is too much information. And therein we find a continuing mission for *International Legal Materials**.

The dramatic growth in the international legal field makes it nearly impossible for scholars and practitioners—let alone the general public—to keep abreast of the most important international legal developments. Fortunately they can rely on our staff and Editorial Advisory Committee to sift through the vast array of documents, identify those that are truly significant, and highlight them in *International Legal Materials* and our bi-weekly electronic bulletin, *International Law in Brief*. The Society's periodic *ASIL Insights* provide additional analysis of particularly high-profile developments.

Beginning in 2007, we have been supplementing all documents published in *International Legal Materials* with an introductory note from one of the many experts ASIL counts among its members. These notes provide summaries of the documents and key insights into their significance. In this volume, we feature notes by Mauro Gatti, Dinah Shelton, and Jennifer Easterday. We are extremely grateful to these authors, and we are confident that you will value their contributions as well.

Please send us your comments and suggestions as we continue our efforts to meet the evolving needs of the international legal community.

Sincerely,

Elizabeth Andersen
Chair
Editorial Advisory Committee

# INTERNATIONAL LEGAL MATERIALS®

## Statement of Editorial Policy

*International Legal Materials* is a core publication of The American Society of International Law that reproduces texts of documents reflecting the broad scope and evolution of international law. The range of covered subjects has expanded from traditional topics such as international organizations, jurisdiction, and international trade to include developments in fields such as intellectual property, environmental law, nuclear non-proliferation, human rights, and international criminal law.

*International Legal Materials* serves as both a bi-monthly information service and a widely recognized archive of international law documents for a diverse, global community of legal scholars, government officials, private practitioners and institutions sharing a common interest in international law. To meet the varied demands of such a readership, documents are selected from world-wide sources on the basis of their present and future legal significance.

*International Legal Materials* is prepared for publication in Washington, D.C., with both the advice of the Editorial Advisory Committee and the assistance of Corresponding Editors around the world. In order to reproduce the texts of selected documents under tight production schedules, the best available source is used, whether electronic or printed.

## Guidelines for Submission of Documents

The ILM Office welcomes any effort to bring suitable documents to the Office's attention. Electronic files or web links are required for publication, although printed texts can be used for initial deliberations regarding republication.

The authenticity (i.e., official version status) of submitted documents must be easily verifiable. This is facilitated by submitting files or print versions which are clearly attributable to the original source, or by providing links to documents on the original source's official website.

If the official version of a document is not available in English, an unofficial translation is acceptable. The original text must accompany such a translation.

## Introductory Notes

Introductory Notes are brief articles from one to three pages in length which are intended to provide background information for a document reproduced in ILM.

For example, an Introductory Note for a treaty might include a short history of the negotiations, the dates of signature, and entry into force. An Introductory Note for legislation would give its history and international significance, while one for judicial proceedings would provide the background of the case.

The views of authors in Introductory Notes are their own and do not necessarily reflect those of either the American Society of International Law or the Managing Editor.

## Acceptance of Materials and Corrections

Print submissions cannot be returned. Translators and others submitting material will be notified of the acceptance of their document for publication.

Once a translation or Introductory Note has been accepted for reproduction, the American Society of International Law will send a publication agreement to the author.

Translators and Introductory Note Authors shall be acknowledged in *International Legal Materials*.

In some cases minor editorial or typographical alterations may be made without contacting the author or translator. Major corrections will be sent to the author or translator for approval. Corrected Introductory Notes or translations must be returned within the time specified.
