PUBLICATIONS

of the

Linguistic Society of America

LANGUAGE, the journal of the Linguistic Society of America, carries technical articles dealing with problems of linguistic science, reviews of recently published linguistic works, and notes of interest to professional linguists.

As supplements to LANGUAGE, the Linguistic Society of America issues a series of occasional publications, LANGUAGE MONOGRAPHS. These are included in the subscription price of the journal, but may also be purchased separately. In the LANGUAGE MONOGRAPH series, the Society publishes independently subsidized studies which are too long to appear as articles or are otherwise unsuitable for publication in the journal. The method of application for admission to this series of supplements, and the terms of publication, may be secured from the Secretary of the Society.

SPECIAL PUBLICATIONS in the field of linguistic science are issued by the Society from time to time. These are not included in the subscription price of the journal.

MEETING HANDBOOKS, which contain program listings and abstracts of papers presented at LSA Annual Meetings, 1965 through 1971, may be purchased separately.

A list of publications in print is available from the Secretary of the Society. Current prices for LANGUAGE are as follows: Complete volume 43, $8.00; volume 45 onward, $16.00; single numbers currently in print from volumes 39–44, $3.00; volume 45 onward, $6.00. Reprint editions of volumes 1–42 and 44 of LANGUAGE, Monographs 1–21, 25–26, and Dissertations 1–57 are available from Kraus Reprint Corporation, Route 100, Millwood, N.Y. 10546, and a price list can be obtained from that address.

Distinguished linguistics titles from Harcourt Brace Jovanovich

Aspects of Language
SECOND EDITION

DWIGHT BOLINGER, *Emeritus, Harvard University*

This new edition of *Aspects of Language* continues to offer beginning students a comprehensive, eclectic introduction to the study of language. The author covers thoroughly all the standard topics in linguistics and provides a fair, balanced treatment of all the major linguistic theories. In the book are incorporated important new materials on psycho-, socio-, anthropological, and developmental linguistics, and new practical exercises have been added.

Paperbound. 682 pages

accompanied by

Working with Aspects of Language
SECOND EDITION

MANSOOR ALYESHMERNI, *University of Minnesota*
PAUL TAUBR, *Formerly Cleveland State University*

This text-workbook of exercises and readings not only tests students' understanding of what they have read in *Aspects of Language* but encourages them to make generalizations about language based on principles that they, as language-users, know implicitly. Although the majority of the exercises concern English, several comparative exercises using other languages have been included to emphasize the universality of the linguistic processes discussed. An *Instructor's Manual* provides answers to the exercises and a bibliography for each chapter.

Paperbound. 282 pages

The Origins and Development of the English Language
SECOND EDITION

THOMAS PYLES, *Northwestern University*

This major textbook is a comprehensive survey of the phonological and grammatical evolution of the English language from prehistoric times to the present. Among the important topics covered are the history of writing, the relationship between writing and speech, the subtle differences between Early Modern English and the English of today, and the differences between British and American English in pronunciation, syntax, and spelling.

413 pages

A Course in Phonetics

PETER LADEFOGED, *University of California at Los Angeles*

This new textbook presents a fresh, thorough introduction to the basic tools and concepts of phonetics that fully and accurately reflects current linguistic theory. Professor Ladefoged provides a careful study of acoustic phonetics and feature systems and teaches students to read and write phonetic transcriptions. The book includes a number of tear-out exercises and, in the later chapters, treats sounds from languages other than English.

Paperbound. 304 pages

FOUNDATIONS OF LANGUAGE DEVELOPMENT

A Multidisciplinary Approach

edited by ERIC H. LENNEBERG and ELIZABETH LENNEBERG

CONTENTS OF VOLUME 1: **Preliminaries:** *M. Critchley*, Language. *E. H. Lenneberg*, The Concept of Language Differentiation. *G. C. Lepschy*, Some Problems in Linguistic Theory. *A. A. Leontiev*, The Heuristic Principle in the Perception, Emergence, and Assimilation of Speech. **Natural History:** *F. Nottebohm*, A Zoologist's View of Some Language Phenomena, with Particular Emphasis on Vocal Learning. *M. Jacobson*, Brain Development in Relation to Language. *A. R. Lecours*, Myelogenetic Correlates of the Development of Speech and Language. *O. L. Zangwill*, The Ontogeny of Cerebral Dominance in Man. **Ontogeny:** *C. A. Ferguson and O. K. Garnica*, Theories of Phonological Development. *S. Nakazima*, Phonemicization and Symbolization in Language Development. *F. Antinucci and D. Parisi*, Early Semantic Development in Child Language. *I. M. Schlesinger*, Grammatical Development—The First Steps. *H. Sinclair*, The Role of Cognitive Structures in Language Acquisition. *M. A. K. Halliday*, Learning How to Mean. *M. F. Bowerman*, Cross-Linguistic Similarities at Two Stages of Syntactic Development. *D. I. Slobin*, On the Nature of Talk to Children. *C. B. Cazden and R. Brown*, The Early Development of the Mother Tongue, *N. O'Connor*, Cognitive Processes and Language Ability in the Severely Retarded. *J. de Ajuriaguerra and R. Tissot*, Some Aspects of Language in Various Forms of Senile Dementia (Comparisons with Language in Childhood).

Volume 1/1975, 370 pp., $21.00/£10.50

CONTENTS OF VOLUME 2: **Aphasiology:** *E. H. Lenneberg*, In Search of a Dynamic Theory of Aphasia. *E. Bay*, Ontogeny of Stable Speech Areas in the Human Brain. *L. S. Tsvetkova*, The Naming Process and Its Impairment. *A. R. Luria*, Basic Problems of Language in the Light of Psychology and Neurolinguistics. *A. R. Lecours*, Methods for the Description of Aphasic Transformations of Language. *O. L. Zangwill*, The Relation of Non-Verbal Cognitive Functions to Aphasia. *M. Kinsbourne*, Minor Hemisphere Language and Cerebral Maturation. *H. Hécaen*, The Relationship between Aphasia and Disturbances of Gesture and Perception. **Deafness and Blindness:** *D. B. Fry*, Phonological Aspects of Language Acquisition in the Hearing and the Deaf. *E. Abberton and A. J. Fourcin*, Visual Feedback and the Acquisition of Intonation. *H. Furth and J. Youniss*, Congenital Deafness and the Development of Thinking. *S. Fraiberg and E. Adelson,* Self-Representation in Language and Play: Observations of Blind Children. **Language in the Clinic:** *T. T. S. Ingram*, Speech Disorders in Childhood. *A. J. Fourcin*, Language Development in the Absence of Expressive Speech. *J. Ryan*, Mental Subnormality and Language Development. *A. B. Lefèvre*, Language Development in Malnourished Children. *J. B. de Quirós and O. Schrager*, Postural System, Corporal Potentiality and Language. **Reading and Writing:** *J. de Ajuriaguerra and M. Auzias*, Preconditions for the Development of Writing in the Child. *C. Read*, Lessons to be Learned from the Preschool Orthographer. *F. Smith*, The Relation between Spoken and Written Language. *M. Critchley*, Specific Developmental Dyslexia. *S. U. Philips*, Literacy as a Mode of Communication on the Warm Springs Indian Reservation. *E. Weigl*, on Written Language: Its Acquisition and Its Alexic-Agraphic Disturbances.

Volume 2/1975, 424 pp., $21.00/£10.50

A TRANSFORMATIONAL APPROACH TO ENGLISH SYNTAX

Root, Structure-Preserving, and Local Transformations

by JOSEPH E. EMONDS

This book is an extensive survey of most of the central processes of English syntax within the framework of transformational generative grammar developed by Noam Chomsky.

The book features: an account of what kind of derived constituent structure can be produced by transformations; an adaptation of Chomsky's "bar notation" to give a set of constraints on base rules; a formulation of the root transformations (main clause rules) of English; a formulation of other major syntactic processes of English as structure-preserving rules, whose outputs are essentially configurations generated by the base or by local rules; totally new analyses of extraposition and WH-fronting; detailed analysis of French clitics with no positive output constraints; an analysis of the English auxiliary; and an interpretation of deletions of specified formatives as root or local transformations.

1975, 278 pp., $18.00/£9.35

MONTAGUE GRAMMAR

edited by BARBARA H. PARTEE

PARTIAL TENTATIVE CONTENTS: *B. H. Partee*, Some Transformational Extensions of Montague Grammar. *R. H. Thomason*, Some Extensions of Montague Grammar. *M. Bennett*, A Variation and Extension of a Montague Fragment of English. *R. Rodman*, Scope Phenomena, Movement Transformations and Relative Clauses. *E. B. Delacruz*, Factives and Proposition Level Constructions in Montague Grammar. *D. R. Dowty*, Montague Grammar and the Lexical Decomposition of Causative Verbs. *C. L. Hamblin*, Questions in Montague English. *M. J. Cresswell*, The Semantics of Degree. *E. A. Siegel*, Capturing the Russian Adjective. *R. Cooper and T. Parsons*, Montague Grammar, Generative Semantics and Interpretive Semantics.

1975, about 375 pp., in preparation

NEW
FROM CALIFORNIA

The Concept of Structuralism

A Critical Analysis

Philip Pettit

The common link between the work of Lévi-Strauss in anthropology, of Barthes in literary theory, and that of other contemporary French thinkers such as Althusser, Foucault, and Lacan is that they seek to extend the concepts and methods of linguistics — structural linguistics — to their own areas of interest. In this volume, Pettit offers a philosophical analysis of the feasibility of their enterprise. The book is unusual in that it is the most comprehensive account of the structuralist enterprise available, yet one of the most concise.

Speaking, Reading, Transforming:

Levels of Language Competence

An Introduction to the Principles of Transformational Syntax
by Adrian Akmajian and Frank Heny

Noam Chomsky has stated that "Akmajian and Heny have undertaken a difficult and challenging task and have, I believe, succeeded admirably in carrying it out. Their *Introduction to the Principles of Transformational Syntax* proceeds systematically from simple examples to problems of considerable complexity that are often near or at the borders of research in the field.

". . . I think it is an excellent text."

$14.95

French Syntax: The Transformational Cycle
by Richard S. Kayne

"The illumination of the language by the theory, and of the theory through study of the language," is the dual goal the author sets himself in the Preface to this book. Working within the theory of generative grammar, which was stated in its basic form in Noam Chomsky's *Aspects of the Theory of Syntax* (The MIT Press, 1965), Kayne motivates several transformations and demonstrates their operation in French syntax.

Journal of Linguistics

Published for the Linguistics Association of Great Britain

Editors: F. R. Palmer and P. H. Matthews, University of Reading

Concerned with all branches of linguistics, including phonetics, word derivations, descriptions of particular languages, the application of linguistic research to the teaching of languages, and information retrieval and machine translations which have a bearing on linguistic theory. The journal publishes book reviews and discussions on recent articles.

Published twice a year. Subscription price: individuals $19.50, institutions $23.50.

Journal of Child Language

Editor: David Crystal, University of Reading

The only journal exclusively devoted to the study of child language. Articles are published on all aspects of the scientific study of language behavior in children and the principles that underlie it. Emphasis is on development of both monolingual and multilingual children, but some reference is made to pathological development and the educational implications of child language development. The journal publishes book reviews, discussions, and reports of major research projects and conference proceedings.

Published three times a year. Subscription price: individuals $25.00, institutions $36.00.

Language in Society

An international journal of sociolinguistics

Editor: Dell Hymes, University of Pennsylvania

Devoted to the study of all areas of speech and language as aspects of social life. Preference is given to contributions of general and theoretical or methodological interest. The journal publishes articles, reports of work in progress, and English and foreign-language reviews. For the linguist, anthropologist, sociologist, and psychologist.

Published three times a year. Subscription price: individuals $24.50, institutions $45.00.

Language Teaching and Linguistics: Abstracts

Compiled by the English-Teaching Information Centre of the British Council and the Centre for Information on Language Teaching.

Formerly known as *Language Teaching Abstracts,* the *Abstracts* keep teachers and other specialists informed of the latest research and developments in the study of modern languages, including English as a second language. The *Abstracts* provide summaries in English of articles from over 400 periodicals covering work in psychology, linguistics, language studies, teaching methodology and technology, and experimental teaching. Each issue contains an in-depth survey article, with full bibliographical references, on a major topic in language and linguistics.

Published quarterly. Subscription price: individuals $16.50, institutions $23.50.

for the linguist's library...

LANGUAGE AND SEX, *edited by Barrie Thorne and Nancy Henley.* A sociologist and a psychologist team their perspectives to select and present major papers from a variety of disciplines about the impact of language usage on sex discrimination, integration, and role-specialization. ☐ $8.95.

A SOCIOLINGUISTIC APPROACH TO BILINGUAL EDUCATION, *by Andrew D. Cohen.* Analyzing problems encountered and results achieved in a specific California program over a period of time, Cohen achieves an intriguing overview of current methodologies for integrating minority language and culture into public education. Ready in November – ☐ $12.95; ☐ Paperback $9.95.

SEMANTIC THEORY: A LINGUISTIC PERSPECTIVE, *by Don and Alleen Nilsen.* Investigating the relationship between form and meaning, the authors examine the nature of universal semantic theory as a pivot for relating linguistics to other disciplines. An excellent introduction assuming no prior specialized study. ☐ $11.95; ☐ Paperback $6.95.

TOPICS IN APPLIED LINGUISTICS, *by Ronald Wardhaugh.* Applying linguistic insights to the specific challenge of teaching English as a second language. ☐ $10.95; ☐ Paperback $6.95.

THE MULTINATIONAL SOCIETY, *edited by William F. Mackey and Albert Verdoodt.* Papers by 81 scholars from 27 countries, on the cultural assimilation problems of minorities as a major source of world tension. ☐ $13.95; ☐ Paperback $9.95.

THE SOCIOLOGY OF LANGUAGE, *by Joshua A. Fishman.* Blending linguistics, social science, and psychology—Fishman introduces students in all of these disciplines to the crucial impact of language on social problems. ☐ Paperback $5.95.

SOCIOLINGUISTICS: A BRIEF INTRODUCTION, *by Joshua A. Fishman.* How society influences language, and how linguistic usage influences social mobility—with a pioneering treatment of speech variations within language groups. ☐ Paperback $4.50.

LANGUAGE AND NATIONALISM, *by Joshua A. Fishman.* Two integrative essays on the effect of language in unifying societies—and the nature of nationalistic myth-making. ☐ Paperback $6.95.

COMMON ERRORS IN LANGUAGE LEARNING, *by H.V. George.* Using the two-year college program as a context, George probes the challenge of meeting students' *personal* goals in foreign language programs. ☐ $10.95; ☐ Paperback $5.95.

Other useful Newbury House references in linguistics, sociolinguistics, and psycholinguistics are described in the free brochures offered below.

Watch for future announcements of forthcoming new titles in Newbury House's expanding sociolinguistics series, being developed under the direction of Roger Shuy.

Linguistics

ETYMOLOGICAL DICTIONARIES

A Tentative Typology
Yakov Malkiel

Yakov Malkiel has undertaken a comprehensive cross-linguistic description, analysis, and evaluation of etymological dictionaries—beginning with the seventh-century work, *Etymologiae,* by Isidore of Seville and continuing through late twentieth-century examples.
1975 192 pages Cloth $15.00

THE AKKADIAN INFLUENCES ON ARAMAIC

Assyriological Studies, No. 19
Stephen A. Kaufman

This volume presents the results of the latest research into the Akkadian influences on Aramaic. Dr. Kaufman has concentrated on the evidence for Akkadian-Aramaic contact during the first major period of that contact, roughly the first millennium B.C.
1975 xvii, 196 pages Paper $6.50

DEFINING A LINGUISTIC AREA

South Asia
Colin P. Masica

This book is a seminal study of the concept of "linguistic area." Colin Masica explores the theoretical preciseness of this notion and, in addition, offers a concrete case study of the geographic patterning exhibited by particular South Asian linguistic traits.
1975 256 pages Cloth $16.00

A DICTIONARY OF THE OLDER SCOTTISH TONGUE

From the Twelfth Century to the End of the Seventeenth
Founded on the Collections of Sir William A. Craigie
Part XXVII, O- to Ordinance
Edited by A. J. Aitken

The words reflect all facets of legal, ecclesiastical, economic, political, and domestic history.

A Reference Grammar of Japanese

Samuel E. Martin

This is the first reference grammar of modern Japanese and probably the most comprehensive work ever written on the language. Primarily a description of the way the Japanese put their sentences together today, it provides detailed information on syntactic, morphological, and phonological structures within a broad frame of reference that includes an interest in the history and prehistory of the language.

"I have no doubt that it will become the most widely used reference work on Japanese throughout the world, and the takeoff point for most of the scholarly work on Japanese for many years to come."—Eleanor H. Jorden $40.00

Creole Drum

An Anthology of Creole Literature in Surinam

Jan Voorhoeve and Ursy M. Lichtveld, editors

English translations by Vernie A. February

"Sranan is one of the least known, yet most often maligned, of all Afro-American languages. This book, in one fell swoop, introduces a whole new literature—a group of poems, songs, and stories that speak very much for themselves."—Richard Price $12.50

Annotated Quotations from Chairman Mao

John DeFrancis

An addition to the DeFrancis Chinese-language textbook series, this volume presents the original Chinese text of Mao's little red book with a pinyin transcription. The annotation includes vocabulary, notes to difficult passages, stroke index of variant forms, and pinyin index. Cloth $20.00 Paper $7.95

Yale University Press New Haven and London

YALE

Spanish and English of U.S. Hispanos:

A Critical, Annotated, Linguistic Bibliography

Edited by Richard Teschner, Garland Bills, & Jerry Craddock

One of the most extensive bibliographies yet to be published on the language of the Hispano communities. This volume contains 675 annotated items relating in full or in part to the speech and language behavior of Chicanos (Mexican-Americans), mainland Puerto Ricans, Cubans, Sephardic Jews, peninsulares (Spaniards), and isleños (Canary Islanders in Louisiana).

352 pp. 1975 $7.95
