CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

XVth EUROPEAN POULTRY CONFERENCE

DUBROVNIK, CROATIA

17th to 21st September 2018

Essential topics will be addressed by internationally recognized experts under the following sessions:

- *Economics and Marketing*
- *Nutrition*
- *Breeding and Genetics*
- *Reproduction and incubation*
- *Egg and Meat quality*
- *Safety of poultry products*
- *Diseases*
- *Welfare and behavior*
- *Education and Technology transfer*
- *Other species*

Chairperson of the Conference:
Prof. Dr. Estella Prukner-Radovčić
prukner@vef.hr

Chairperson of the Scientific Committee:
Prof. Dr. Helga Medic,
hmedic@pbf.hr

Secretary:
Assist. Prof. Danijela Horvatek Tomić

As president of the Mediterranean Poultry Network, I would like to extend to all of you our heartiest welcome to the 6th MPS.
The Italian Branch of WPSA has kindly offered to host this summit and have already started preparations to make this summit a very memorable one.
The summit will be held on the grounds of the University of Torino, which is one of the oldest universities in Europe with excellent facilities for the size of our meeting.

Meyn maximizes animal welfare and profit

The Meyn Grande drawer system offers flexible layouts, depending on specific plant requirements, and can be based on a U-shape or an I-shape.

- Efficient loading, with minimal stress for both manual and automatic operations
- Strongest drawers and modules, for minimized operational cost and reduced risk of downtime
- Sufficient headspace for birds, preventing heat stress and ensuring uniform meat quality
- Supports the highest line speeds and line efficiencies

It is all about the embryo.
Successful incubation relies on supporting the needs of the growing embryo with the right tools. Managing and monitoring endothermic, neutral, exothermic and hatching environments by tailoring conditions to the specific embryonic needs throughout the hatch.

And it is also about knowledge.
With 250 years of combined knowledge, our team of hatchery professionals know how to use the right tools to get the best results.

DISCOVER OUR DIGESTIVE PERFORMANCE APPROACH

Intestinal integrity is one of the most complex issues in animal nutrition. Yet, it is a key success factor in the development of healthy, high-performance animals. For more than 50 years we have been studying the interaction between feed composition, environmental infection and the animal's digestive tract, on the understanding that future use of antibiotics will be reduced. We would like to share our in-depth knowledge and hands-on experience with you. It's good for you, and great for your chickens.

Interested? Let's get in touch:

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
