Owing to a printing error, figure 6(*f*) on page 249 is wrong. The correct figure, together with the corresponding experimental observation (figure 6*e*) is printed below.

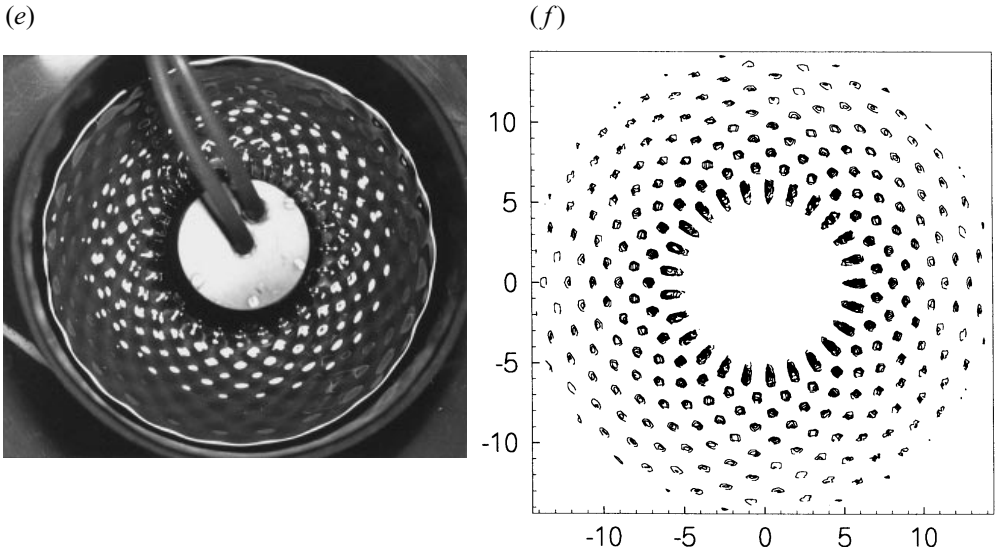

FIGURE 6(*e*, *f*) (corrected). Comparison of parametrically excited resonance modes as observed in the laboratory with patterns predicted by (3.54). Laboratory observations for $f_e = 31.10$ Hz (*e*), and surface elevation patterns according to (3.54) for (*f*) $n = 25$, $m = 11$.
