information on surveillance and prevention of occupational infections and injuries; and to identify areas for future research.

These broad objectives should interest a large target audience, including not only hospital epidemiologists and infection control practitioners, but also quality improvement professionals, hospital administrators, surgeons, intensivists, and microbiologists.

The conference format will include symposia, scientific sessions, poster sessions, and industry exhibits. Original scientific contributions will be solicited actively. Abstract forms, registration forms, and housing forms will be included in the preliminary program.

The chair and co-chair for this exciting event are Drs. C. Glenn Mayhall and John P. Burke, respectively. For further information, please contact SHEA, 875 Kings Highway, Suite 200, West Deptford, NJ 08096. Telephone (609) 845-1636.

SHEA Membership List Available

A SHEA membership list is available for individuals or organizations who want to target mailings to hospital epidemiologists and other infectious disease specialists. The costs for a one-time mailing list are as follows: a commercial business, $500; a not-for-profit organization, $150; and a member using the list for research purposes, $50. To order the list, contact SHEA Executive Director, 875 Kings Highway, Suite ZOO, West Deptford, NJ 08096. Telephone (609) 845-1636.

Brief items of interest for the SHEA Newsletter may be sent to Robert A. Weinstein, MD, SHEA Newsletter Editor, Division of Infectious Diseases, Michael Reese Hospital, Lake Shore Drive at 31st St., Chicago, IL 60616. Copy must ***be typed, doublespaced, and may not exceed five pages.***

They show all the signs of having HIV.

There aren't any you can see. The truth is, there is absolutely no way to tell from outward appearance who is infected with HIV, the virus that causes AIDS. So don't fool yourself.

How you act will determine your risk for HIV infection. There are some general rules. Never share drug needles or syringes. And unless you're sure your sex partner isn't infected, don't take a chance. Or at least use a latex condom, correctly, every single time you have sex.

Know how to determine your risk for HIV and AIDS. There is help available. Call your State or local AIDS hotline, or the National AIDS Hotline at 1-800-342-AIDS. Call 1-800-243-7889 (TTY) for deaf access.

AMERICA RESPONDS TO AIDS

HIV is the virus that causes AIDS.

Department of Health & Human Services. Public Health Service, Centers for Disease Control.
