Environmental Conservation **33** (2): 179 © 2006 Foundation for Environmental Conservation doi:10.1017/S0376892906003201

ERRATUM

Nyahongo, J.W., East, M.L., Mturi, F.A. & Hofer, H. (2005) Benefits and costs of illegal grazing and hunting in the Serengeti ecosystem. *Environmental Conservation* **32 (4)**: 326–332.

The caption of Figure 3 on p. 331 contained an error. The caption should have read as follows.

Figure 3 The density of wild herbivores in the (*a*) Kirawira transect, (*b*) Ndabaka transect, and (*c*) Mihale transect. Black bars = density in areas of the Serengeti NP; open bars = density in areas governed by a village council; grey bars = density in the Grumeti GR. No wild herbivores were observed in the area governed by a village council in the Mihale transect between May 2001 and March 2002.

The editors would like to apologize for any confusion caused.
