Turning thirty isn't over the hill,

It's king of the hill.

While others come and go, only CIDEX* Solution has provided you with reliable disinfecting and sterilizing for over 30 years. What started in 1963 as a revolutionary high level disinfectant has grown into an entire family of cleaning and disinfecting products. A Family of Products that has passed the test of time to become a name trusted for reliability and efficacy by health care professionals worldwide.

Today's CIDEX Family of Products includes ENZOL* Enzymatic Detergent, a mild, enzyme-based detergent that works as both a presoak and cleaner. For high level disinfection you have a choice of three CIDEX Solutions, all formulated to meet different needs. Also, each formulation of CIDEX Solution has its own test strip designed exclusively to test the efficacy of that solution.

Today, the CIDEX Family of Products is still going strong, providing an efficacious, cost effective choice - non-corrosive to delicate instrumentation such as endoscopes. Though our family has grown, our high standards in disinfecting and sterilizing never change. For more information, contact your Johnson & Johnson Medical, Inc. Account Manager; for technical information, call 1-800-423-5850.
