doi:10.1017/S0267190509990079

Julie A. Belz (Ph.D., University of California at Berkeley) is Associate Professor of English/Applied Linguistics and Adjunct Associate Professor of World Languages and Cultures at Indiana University/Purdue University, Director of the TESOL Certificate Program, and Faculty Research Fellow at the Indiana Center for Intercultural Communication. She specializes in Internet-mediated language learning, intercultural communication, second language acquisition, pragmatics, learner corpus research, discourse analysis, learner identity, multilingual writing, and health discourse. Julie is a member of an interdisciplinary team exploring the relationship of health literacy, life stories, and medication adherence among type 2 diabetes patients under a grant from the Lilly Foundation. She is the co-editor of *Internet-Mediated Intercultural Foreign Language Education* (Heinle & Heinle, 2006) and guest editor of a special issue of *Language Learning & Technology* on telecollaboration. Julie has published extensively in refereed outlets and serves on the editorial panels of *Applied Linguistics* and The American Association for University Supervisors and Coordinators of Foreign Language Programs (AAUSC).

Robert J. Blake is Professor of Spanish at the University of California, Davis and founding Director of the UC Consortium for Language Learning & Teaching. He has published widely in the fields of Spanish linguistics, second language acquisition, and computer-assisted language learning. He was the academic consultant for *Nuevos Destinos* (Annenberg/CPB Project, WGBH, and McGraw-Hill Companies) and co-author for *Tesoros* (BeM, McGraw-Hill Companies), a multimedia DVD program for introductory Spanish (http://www.tesoros.es). He is co-author of *Al corriente: Curso intermedio de español,* 4th Edition (McGraw-Hill Companies) and "Spanish Without Walls," a distance-learning course offered through the UC Davis Extension and as a hybrid course through the main campus. His book *Brave New Digital Classrooms: Technology and Foreign-Language Curriculum* will be published by Georgetown University Press in fall, 2008. In May of 2004, Professor Blake was inducted into the North American Academy for the Spanish Language, making him a corresponding member of the Royal Spanish Academy as well.

Douglas Grimes is a doctoral candidate in Informatics at the University of California, Irvine. His dissertation research focuses on the use of automated writing evaluation software for middle school writing instruction. He has published in a range of journals on that topic and on other uses of technology in K-16 education. He is currently examining ways that automated and human feedback can be combined to promote literacy and learning in multiplayer computer games.

Jon Stansell is a Ph.D. student in the Department of Curriculum and Instruction at the University of Illinois at Urbana-Champaign and an adjunct faculty member in the Humanities Department at Parkland Community College. He is interested in language acquisition. He uses conversation analysis and essentialist portraiture to discover how one-to-one writing conferences work effectively. His current research investigates how personal writing topics can uncover and develop students' sense of core beliefs and commitments for more significant learning. In applied linguistics, he has participated in extensive research and co-authored two articles as Numa Markee's long-term (7 years) conversation analysis research assistant. He is also interested in music in the L2 classroom.
