The writer wishes to acknowledge his obligation and to express his sincere gratitude to Professor John C. Rolfe, Professor Walton B. McDaniel, Professor Roland G. Kent, Professor George D. Hadzsits, Professor Harry B. Van Deventer, Professor Edward H. Heffner, Professor Robert B. Burke, Assistant Professor Merle M. Odgers, and Dr. Harrison B. Ash of the University of Pennsylvania for helpful criticism and advice given to him during the preparation of this dissertation. His greatest debt is to Professor Kent, at whose suggestion the work was begun, under whose special guidance it proceeded, and whose generous coöperation and constant encouragement have made possible its completion.
