CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

Managing Perfection

Improve the quality of your hatching eggs

The hatching egg that has just been produced is perfect. But how do you make sure that this hatching egg stays perfect? That it is not too warm, that it stays clean and without cracks? In short, how do you manage the perfection of your hatching eggs? Ask Vencomatic. As the marketleader in managing perfection of hatching eggs they know how.

Call us for an appointment: +31 (0)497 – 517380

High Value Processing

Also our focus

High Value Processing: that's what you aim for. We support you in your objectives, based on decades of dedicated research and numerous successful projects all over the world.

We provide innovative high value poultry processing solutions for all types of poultry, all processing steps and all production capacities.

Marel Stork Poultry Processing equipment meets the highest quality standards and is known for its high yields, reliability, easy operation and lowest cost of ownership.

We focus on solutions for:

- live bird handling and stunning
- defeathering
- evisceration and giblet harvesting
- chilling, including maturation chilling
- automatic in-line weight and quality grading
- cut-up, deboning and fillet handling
- X-ray bone detection
- slicing and portioning
- fresh value added and further processing
- weighing, sorting and batching
- plant control systems
- service, spare parts and preventive maintenance programs.

HEALTHY SOLUTIONS
TOTAL NUTRITION™

INTESTINAL HEALTH ISSUES ARE PREVALENT IN OVER 92.5%** OF FARMS.

DON'T BE A STATISTIC.

Beat the odds. Use CLOSTAT™ from Kemin in feed/ration to reduce intestinal health issues. A patented microorganism, CLOSTAT helps in maintaining balanced intestinal health. It has been proven to help chickens develop a natural defense mechanism against profit-killing intestinal health issues.

CLOSTAT doesn't create any antibiotic resistance or residue concerns. Use CLOSTAT from day one to get a good return on investment from your birds.

Natural solution, proven results.

The world's leading disinfectant Virocid has become even more powerful.

Thanks to the extraordinary cleaning power of **Kenosan**, the world's most powerful disinfectant **Virocid** is able to penetrate deeper and disinfect even more thoroughly than you were used to.

Kenosan combines ultra-strong adhesion power and deep penetrating cleaning action at very low dilutions! The high-level formulation guarantees a unique cleaning result in the most heavy-duty circumstances in the pig, poultry and dairy houses. Even the most thick and dried up dirt (manure, litter, etc.) like in farrowing crates, fattening pens, turkey or broiler rearing houses, milking parlours etc. stands no chance against the penetrating and dissolving power of Kenosan. The cleaning action also gets amplified by extended contact time due to the sticky foam that remains attached upon all types of surface.

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
