Reimagining Prosperity

The historic task of the European Union (EU) today, this book argues, is to articulate and institute a new imaginary of prosperity. Imaginaries of prosperity integrate societies around the shared pursuit of a prosperous future, rendering 'political-economic' questions as the main preoccupation of politics. The new imaginary of prosperity in the EU must be able to provide answers to contemporary societal challenges while also conjuring a world in which people want to live. Through analyses of several policy fields, the book shows that the EU has already made modest strides in fostering more caring consumption, circular products and technologies, sustainable industry, and fairer corporate activity. But the EU must go further and faster if it hopes to respond effectively to Europe's problems, while arresting another descent into tribalism. This title is also available as Open Access on Cambridge Core.

Marija Bartl is Professor of Transnational Private Law at the University of Amsterdam. She is Director of the Amsterdam Centre for Transformative Private Law and a Principal Investigator of the N-EXTLAW Project .

Cambridge Studies in European Law and Policy

The focus of this series is European law broadly understood. It aims to publish original monographs in all fields of European law, from work focusing on the institutions of the EU and the Council of Europe to books examining substantive fields of European law as well as examining the relationship between European law and domestic, regional and international legal orders. The series publishes works adopting a wide variety of methods: comparative, doctrinal, theoretical and inter-disciplinary approaches to European law are equally welcome, as are works looking at the historical and political facets of the development of European law and policy. The main criterion is excellence, i.e. the publication of innovative work, which will help to shape the legal, political and scholarly debate on the future of European law.
