# *Acknowledgements*

The editors would like to thank Nico Krisch, Joost Pauwelyn, Camila Morales Silva, and Sylvia Nissim at the Geneva Graduate Institute for their valuable contributions to their 2021 conference 'Alternative Approaches to International Organizations in International Law: Potentials, Complexities, and Pitfalls' that led to this volume. We are also grateful to Andrew Clapham from the International Law Department and Finola O'Sullivan for their advice on the publishing process. Nothing of this would have been possible without the generous support of the Swiss National Science Foundation, which awarded us the funds required to organize the conference (Scientific Exchanges Grant 2021: 203435) and additionally funded the publication of the volume in Open Access format (Open Access Books 2024 Grant: 230054).
