programme—is readable, informative and admirably dispassionate. It is divided into three sections: (i) therapeutic uses of lithium; (ii) principles of lithium therapy; and (iii) adverse reactions and poisoning. Each section contains several chapters, each of which is well organized, lucid and amply referenced; short case histories are included and a valuable index is provided. The work obviously merits regular updating for its contents are likely to remain relevant for years to come.

ANTHONY HORDERN, *Honorary Psychiatrist, Sydney Hospital, Sydney, Australia*

Books Received
