Climate Justice

Climate Justice: Resisting Marginalization examines the impact of climate change on marginalized communities across the globe and the different ways of resisting these impacts. The book underlines the imbalanced consequences of climate change, driven by the power disparities between the Global North and South. It investigates how climate change aggravates structural inequalities, focusing on the intersectionality of gender, race, technology, and politics. Through a study of resistance and marginalization, the book analyses how these systemic injustices are perpetuated, while offering understandings into the struggles and strategies to build a justice-oriented approach to combating climate change.

Eklavya Vasudev is a legal scholar at Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany.

Marie-Sophie Keller is a socio-legal scholar at Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany.

Siddharth Peter de Souza is an Assistant Professor at Centre for Interdisciplinary Methodologies, University of Warwick, United Kingdom.
