CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

Meyn maximizes animal welfare and profit

The Meyn Grande drawer system offers flexible layouts, depending on specific plant requirements, and can be based on a U-shape or an I-shape.

- Efficient loading, with minimal stress for both manual and automatic operations
- Strongest drawers and modules, for minimized operational cost and reduced risk of downtime
- Sufficient headspace for birds, preventing heat stress and ensuring uniform meat quality
- Supports the highest line speeds and line efficiencies

WHO CARES...

...if making a return from your flock is a little like playing chicken?

While the poultry industry is dealing with high input prices, our best days are ahead of us. ***Alltech's Poultry Advantage Programme*** combines years of research with industry-leading, quality control to improve bird health, while increasing feed efficiency and weight gain.

So, who cares about your profits in these tight times? Remember…

Alltech® DOES!

Contact us at poultryadvantage@alltech.com to learn more about Alltech's

THE FRENCH BRANCH OF WPSA IS INVITING YOU TO PARIS FOR WPC2020

Nearby Champs-Elysées
at « Palais des Congrès de PARIS »,
A venue with scientific sessions, posters, exhibition on a single level

EARLY SPONSORING

is open with a **10% discount until June 30, 2019.**
A large choice of options is proposed, including technical symposia.
Contact: i.brochot@clq-group.com

SCIENTIFIC PROGRAM

The scientific committee gathers representatives of the 14 Working Groups of WPSA, and recognized international experts in poultry science.

NEW!

- **Multidisciplinary sessions** adressing major challenges in poultry production
- Posters will be displayed on large TV screens: **no paper, just 'e-posters'**
- **A mobile app** will help participants to organize their agenda, question speakers and exchange with participants
- **A FAO symposium** to address the contribution of poultry production to sustainable development goals

Important dates

Abstract submission
September 1 to December 31, 2019

Early rate for registration
September 1 to December 31, 2019

A surprising Gala Dinner

with lots of fun and games for an enjoyable evening with colleagues and friends!

It is all about the embryo.
Successful incubation relies on supporting the needs of the growing embryo with the right tools. Managing and monitoring endothermic, neutral, exothermic and hatching environments by tailoring conditions to the specific embryonic needs throughout the hatch.

And it is also about knowledge.
With 250 years of combined knowledge, our team of hatchery professionals know how to use the right tools to get the best results.

Don't water down your efforts.

Best results with MetAMINO®

Enhance nutritional value – and reduce costs.

Liquid methionine sources add unnecessary mass to your feed mix. MetAMINO® in dry crystalline form adds nothing but pure quality. To make the very most of MetAMINO®, you can take advantage of our analytical services for feed components.
MetAMINO®: not just better – best results.

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
