2009 manuscript referees

Each year *Polar Record* calls upon numerous scholars to assist in the demanding and intensive refereeing and peer-review procedures for manuscripts submitted for publication. These individuals give generously of their time and expertise to help ensure that a high academic quality is maintained in *Polar Record*. During the preparation of the four issues for 2009, the following individuals participated in the review and refereeing process. Our deep appreciation for their assistance is offered to all.
