Check the results. SCRUB-STAT IV™ outperforms HIBICLENS.® And costs less, too.

Until now, the standard of comparison for CHG surgical scrubs has been HIBICLENS® Antimicrobial Skin Cleanser.* No longer, Huntington Laboratories has developed a unique CHG based formulation that's as effective as HIBICLENS,® but less expensive. And it's gentle, too. We call it SCRUB-STAT IV.™

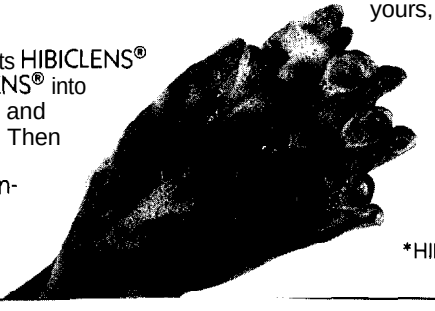

Proven efficacy.

We knew we had to make SCRUB-STAT IV as effective as HIBICLENS® Antimicrobial Skin Cleanser. If it fell short, there would be no reason for you to use it.

SCRUB-STAT IV was subjected to months of independent laboratory testing. The results of these and other tests show that SCRUB-STAT IV is as effective as HIBICLENS® in destroying both gram-positive and gram-negative organisms including Staphylococcus aureus, Pseudomonas cepacia and Serratia marcescens. And SCRUB-STAT IV's residual effect lasts as long as HIBICLENS?

Preferred by hospital personnel.

SCRUB-STAT IV has the skin care emollients HIBICLENS® left out. We put SCRUB-STAT IV and HIBICLENS® into 'unmarked bottles, took them into a hospital and asked 140 staff members to wash with both. Then we recorded their reactions. Seventy-four percent preferred SCRUB-STAT IV. Many mentioned its fragrance and superior lathering, and a large majority simply said it left their hands feeling better. These qualities and SCRUB-STAT IV's efficacy and lower cost make it ideal as a Health Care Personnel Handwash.

Scrub-Mate- disposable dispensing system.

We didn't stop with a better surgical scrub. We also designed a better foot-operated surgical scrub dispenser. It's called Scrub-Mate.

The reservoir in our new quart size dispenser is disposable. So are the head and delivery tube. When it's empty, throw it away. No messy clean up, no clogging, no cross-contamination.

Begin your evaluation nuw.

Huntington formulated SCRUB-STAT IV to help control infection and control costs. We know you'll want to start evaluating it immediately. To speed the process, we'll supply you with product and dispenser for a complete evaluation. To get yours, call us today, toll-free:

BART PHILLIPS SLOANE

Sunlight & Shadow.

The scene is along French Creek at St. Peters, Pennsylvania. Huge, water-worn rocks prompt one to philosophize about time, and patience, and perseverance. A gurgling, splashing water under changing light and shadow adds to the fascination. A pleasant spot for quiet refreshment.

Edition limited to 650 full-color, reproductions, signed by the artist, Bart Phillips Sloane. Image size 20⅛ × 32
$120.00

COLD ISOLATION
INFECTIOUS WASTE CONTROL

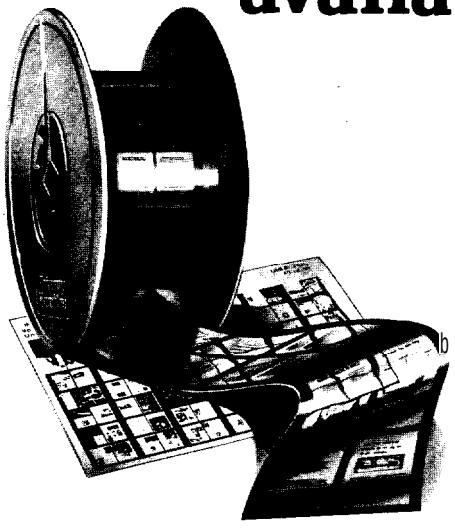

A Bally refrigerated, insulated walk-in will cold store your infectious waste cleanly and safely-indoors or outside.

- A Bally walk-in is made of modular panels that Speed-Lok® together on-site (often in one day). Expansion or relocation is quick and easy.
- Heavy gauge metal skins-inside and out—make cleaning and sanitizing quick, easy, and effective.
- The energy-efficient refrigeration system is designed especially for walk-ins. It's virtually maintenance-free.
- Many standard sizes available-shipped to you within 10 days from receipt of order!
