Accessions to Repositories 2000

The Royal Commission on Historical Manuscripts (HMC) in its annual *Accessions to Repositories* exercise collects information relating to manuscript accessions from over 200 repositories and record offices throughout the British Isles. This information is then edited and used to produce a number of thematic digests which are distributed for publication in a wide range of learned journals and news sheets, as well as being published in full on the Commission's website (http://www.hmc.gov.uk). It is also added to the computerised indices to the National Register of Archives (NRA), which the Commission maintains as a central collecting point for information concerning the location of manuscript sources for British history outside of the public records. The NRA, which includes over 42,000 unpublished lists of archives, can be consulted in our public search room at Quality House, Quality Court, Chancery Lane, London WC2A 1HP, whilst the indices to the NRA are also available via the HMC website. The Commission's staff will also answer limited and specific enquiries by post, fax ((020 7831 3550) and e-mail: nra@hmc.gov.uk.

Readers should note that dates for records in this digest are given when known, but that these are covering dates which are not necessarily intended to indicate the presence of records for all intervening years. Records have been included in the digest regardless of whether the deposit has yet been fully listed, and readers are advised to check with the staff of the relevant repository as to whether this, or any other factors, may prohibit availability for research.

England
