Three summation signs were the wrong point size in an equation appearing near the top of page 330 of an article by T. K. Dijkstra, "Some properties of estimated scale invariant covariance structures", Vol. 55, No. 2.

The correct equation follows:

$$\frac{1}{2}\frac{\partial F^*}{\partial \delta_k}(\iota) = \left\{ \sum_i (\Sigma_{i\cdot} - S_{i\cdot}) W_{ik} \Sigma_{\cdot k} + \sum_{i,j} \sigma_{jk} (\Sigma_{i\cdot} - S_{i\cdot}) W_{ij} e_k \right\} \Bigg|_{\theta = \hat{\theta}_w} = 0.$$
