Country Clinic, 2025, by Dr Adam Hines-Green.
Graphite and coloured pencil on paper.

Dr Adam Hines-Green is a psychiatrist in the NHS in London. Much of his artistic practice relates to psychiatry as a profession. He is the Artist in Residence at the Royal College of Psychiatrists in London until 2028, which is a role offered to a member of the College for a five-year term. The aim of the role is to foster connections and develop projects between the arts, mental health, and those working in these fields.

Country Clinic is one of a series of drawings based on photographs of toy architectural models being sold on eBay. This particular model is the Sylvanian Families 'Country Clinic'. When new, "this set also comes with everything you would expect to find in a doctor's practice, including a reception desk and plenty of reading material, an outfit for your very own Sylvanian Doctor, and all the examination instruments they might need including a stethoscope, scales and clipboard". Sylvanian Families do not produce a psychiatric hospital model.
