Figures

1.1 Dimensions of concept formation *page* 4
2.1 First lessons for the study of concept formation in the wild 14
3.1 Sannino's (2020, p. 169) model of transformative agency by double stimulation 16
3.2 Concepts in activity 19
3.3 The germ cell in the case of the food cooperative 29
3.4 Guiding ideas for the study of concept formation in the wild 31
4.1 Indian fishing boats of the type built in Frasergunj 40
4.2 The old organization chart of the surgical operating unit 46
4.3 The new organization chart of the surgical operating unit 48
4.4 Notational template for constructing homelessness pathways for possibilization 53
4.5 A Change Laboratory participant's representation of Mikko's homelessness pathway 55
4.6 A Change Laboratory participant's representation of Tomi's homelessness pathway 56
4.7 Representation of homelessness pathways produced by two formerly homeless residents of a supported housing unit 57
4.8 A systemic model of the whitefly problem 65
4.9 Chain of distributed actions in the formation of a germ cell concept in the library 75
4.10 The germ cell concept of knotworking in the university library 76
5.1 The procedure of standing up from the chair 84
5.2 Standing up from the chair as an internally contradictory germ cell of sustainable mobility 85
5.3 Ascending from the abstract to the concrete in Anne's case 104
6.1 The structure of a critical encounter 111
6.2 The critical encounter in Case 2 128

6.3 Taking out the trash bag together in Case 3 130
6.4 The critical encounter in Case 4 134
6.5 Different ways of using artifacts in the four home care visits 135
7.1 The stepwise emergence of theoretical concepts as a result of ascending from the abstract to the concrete (Davydov, 1990) 141
7.2 The emergence of concepts as a result of density and stabilization of cognitive trails (Cussins, 1992, p. 683) 142
7.3 Concept formation in the wild as movement along two dimensions 143
7.4 Developmental contradictions in the activity system of the board of the food cooperative 144
7.5 Developmental contradictions in the activity systems of the university library 145
7.6 Mobility-related developmental contradictions in the activity systems of the home care 146
7.7 Movement toward the concept of expansive degrowth in the food cooperative 149
7.8 Movement toward the concept of knotworking in the library 152
7.9 The movement of the concept of sustainable mobility in home care 154
8.1 First set of key differences between the PHF and the FHF 161
8.2 Second set of key differences between the PHF and the FHF 162
8.3 The contradiction between substances and home as driving force for the concept of Housing First (Sannino, Engeström & Kärki, 2023, p. 48) 163
8.4 The FHF concept as a solution to the contradiction (Sannino, Engeström & Kärki, 2023, p. 49) 164
8.5 Steps toward Housing First 2.0 169
8.6 The contradiction between permanence and mobility in homelessness work (Sannino, Engeström, & Kärki, 2023, p. 52) 171
8.7 Transformation of Nopsajalka's operating model in Jyväskylä (Sannino, Engeström & Kärki, 2023, p. 22) 172
8.8 The Housing First 2.0 concept as a solution to the contradiction (Sannino, Engeström, & Kärki, 2023, p. 53) 173
9.1 Evolution and design in four cases of formation of germ cell concepts 180
9.2 Pyramid of five types of functional concepts 182
