CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

XVth EUROPEAN POULTRY CONFERENCE

DUBROVNIK, CROATIA

17th to 21st September 2018

Essential topics will be addressed by internationally recognized experts under the following sessions:

- *Economics and Marketing*
- *Nutrition*
- *Breeding and Genetics*
- *Reproduction and incubation*
- *Egg and Meat quality*
- *Safety of poultry products*
- *Diseases*
- *Welfare and behavior*
- *Education and Technology transfer*
- *Other species*

Chairperson of the Conference:
Prof. Dr. Estella Prukner-Radovčić
prukner@vef.hr

Chairperson of the Scientific Committee:
Prof. Dr. Helga Medic,
hmedic@pbf.hr

Secretary:
Assist. Prof. Danijela Horvatek Tomić
horvatek@vef.hr

Sponsors and exhibitors:
Prof. Dr. Zlatko Janječić

Rapid Plus breast deboner M3.0

TDS thigh deboning solution M1.0

WLD whole leg deboner M2.0

MEYN: TRUE SPECIALISTS IN DEBONING

A long track record of innovation and service has enabled Meyn to become the business partner for leading poultry processing companies in over a hundred countries. Nowhere is our forward thinking expertise more evident than in our highly advanced solutions for thigh, whole leg and breast deboning.

RESPONDING TO EVOLVING CONSUMER TASTES

More and more consumers worldwide prefer to purchase chicken products that have been deboned. So it's essential that you are able to debone the whole bird with ultimate speed and precision in order to create attractive and cost-effective offerings for the market. Meyn enables this with options that are at the forefront of deboning technology.

No product embodies our expertise in this area more than the widely installed Meyn Rapid Plus breast deboner M3.0. It makes possible the high-capacity (6,000 breastcaps/fronthalves p/h) harvesting of all fillet and tender products, enabling significant labor savings while processing in one setting.

But that's not all, because Meyn solutions can also debone thighs and legs to the same high standard with systems such as the Meyn TDS thigh deboning solution M1.0 and the Meyn WLD whole leg deboner M2.0.

Both of these options offer market leading capacity along with consistently excellent presentation and maximum yield.

To get the whole story about Meyn's commitment to deboning, go to www.meyn.com

LESS FEED, MORE MEAT.

LESS FEED – + MORE MEAT

Hubbard
YOUR CHOICE, OUR COMMITMENT

Feed cost represents over 70% of live production cost of a broiler, the highest levels in history. Hubbard offers the best products to save feed costs on breeder and broiler level.

- The "Feedsaver" concept of the JV and F15 breeders saves about 15% of feed to produce a broiler day-old-chick compared to conventional breeders.
- All Hubbard broilers have an excellent FCR compared to other breeds.

Just use less kg of feed to produce 1 kg of live broiler, 1 kg of carcass or 1 kg of total meat !

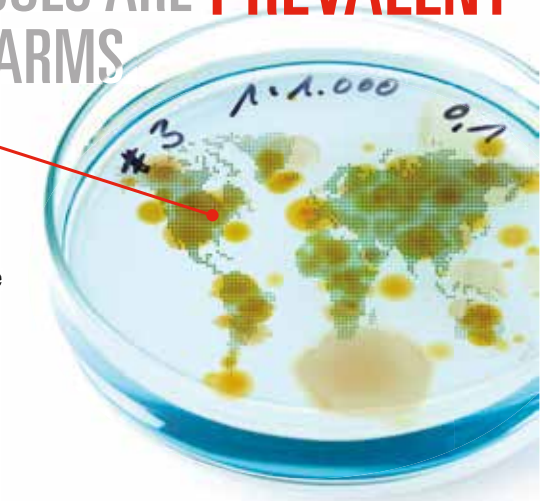

Hubbard is a company of

VICTAM Asia 2018

FIAAP grapas

27 – 29 MARCH 2018 · BITEC EXHIBITION HALLS, BANGKOK, THAILAND

Asia's largest feed and grain event

Your global marketplace – an international event in an international city being held in a country with large home markets

What's on show at VICTAM Asia 2018?
- Feed production technology • Packaging • Energy efficiency
- Auxiliary equipment • Biomass pelleting technology

What's on show at FIAAP Asia 2018?
- Ingredients • Additives • Formulation • Laboratory equipment
- Quality control

What's on show at GRAPAS Asia 2018?
- Rice milling and sorting technology • Flour milling technology
- Flakers, extruders • Grain processing systems • Additives

Industry conferences
- The FIAAP Asia Animal Nutrition Conference 2018 • Petfood Forum Asia 2018 • Aquafeed Horizons Asia 2018 • GRAPAS & Global Milling Conference Asia 2018 • Biomass and Biomass Pelleting 2018
- Third ASEAN Feed and Rice Symposium

Supported by
- Thai Ministry of Agriculture & Co-Operatives • Thai Department of Livestock Development • Thai Department of Fisheries
- Thai Feed Mill Association • Thai Rice Milling Association
- Thai Chamber of Commerce
- Thailand Convention & Exhibition Bureau

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
