MAX NIEMEYER VERLAG

Lexicon Grammaticorum

A bio-bibliographical companion to the history of linguistics

Edited by
Harro Stammerjohann

2nd revised and enlarged edition 2009.
2 parts. Approx. 1700 pages. Cloth.
RRP Approx. € 428.00/*US$ 599.00
ISBN 978-3-484-73068-7

The *Lexicon Grammaticorum* is a biographical and bibliographical reference work on the history of all the world's traditions of linguistics. Each article consists of a short definition, details of the life, work and influence of the subject, and a primary and secondary bibliography. The authors include some of the most renowned linguistic scholars alive today. For the 2nd edition, twenty co-editors were commissioned to propose articles and authors for their areas of expertise. Thus this edition contains some 500 new articles in addition to the completely revised 1500 articles from the 1st edition by more than 400 authors from 25 countries. Attention has been paid to making the articles more reader-friendly, in particular by resolving abbreviations in the textual sections.

Quantitative and Experimental Linguistics

David Eddington (ed.)

Brigham Young University

Recent technological advances, coupled with the adoption of research methods from fields such as psychology, neurology, and computer science, had resulted in a boom in studies that employ experiments and quantitative means to explore questions of linguistic structure and processing. This volume addresses a number of these fields: sociolinguistics, connectionism, exemplar models, experimental phonetics, chronometric experiments, non-chronometric experiments, neuroimaging, and usage-based models.

Although a wealth of information exists in each field, most of what is available is written to investigate a research question and is not meant as an introduction to a particular field or its methodologies. The present volume is designed to fill this need. It is not meant to detail what the state-or-the-art in the fields is. Instead, it serves as a reference work for those who are interested in learning more about experimental and quantitative approaches to linguistics, or a particular sub-branch of these. The chapters are designed to introduce the reader into the field, and the methods commonly employed, as well as illustrating some of the issues examined, and pointing the way to further studies.

Contents: *Preface - Linguistics and the Scientific Method* (David Eddington) - *Sociolinguistics* (Wendy Baker) - *Connectionism* (Patrick Juola) - *Exemplar-based Models* (Steve Chandler) - *Experimental Phonetics* (Caroline Smith) - *Chronometric Psycholinguistic Techniques: Timing the Lexicon* (Gary Libben) - *Non-chronometric Experiments in Linguistics* (Bruce L. Derwing & Roberto G. de Almeida) - *Neuroimaging of Speech and Language* (Martin Meyer) - *Usage-based Models of Language* (Joyce Tang Boyland).

ISBN 978 3 89586 737 8 (Hardcover). **LINCOM Handbooks in Linguistics 23**. 428 pp. USD 169. 2009.

Optimality Theory and Phonetics-Phonology Interface

Štefan Beňuš

Constantine the Philosopher University in Nitra

The book presents Optimality Theory (OT) as the most influential recent framework for theoretical phonological analyses, and proposes an OT model for analyzing the relationship between continuous and discrete aspects of the cognitive system of human speech. The first three chapters present the essential OT tools and practical descriptions of their use in data analysis. The fourth chapter is the core of the book. It starts with a detailed description of the phonological and phonetic properties of transparent vowels /i/ and /e/ in Hungarian vowel harmony. Then, it proposes extensions of the OT tools using the notions of non-linear dynamics. Finally, the chapter presents a formal OT model that accounts for the relationship between the phonetic and phonological characteristics of transparent vowels.

ISBN 978 3 89586 395 0. **LINCOM Studies in Theoretical Linguistics 40**. 151pp. USD 80. 2009.

The Origin of the Sun and Moon

A Copala Triqui Legend

Narrated by Román Vidal López

Transcribed, edited, and analysed by George Aaron Broadwell, Kosuke Matsukawa, Edgar Martín del Campo, Ruth Scipione, Susan Perdomo *with the assistance of José Fuentes*
University of Albany, SUNY

Copala Triqui is an indigenous language of Oaxaca, Mexico. It belongs to the Mixtecan branch of the Otomanguean family. This work gives an analysis of a long Copala Triqui legend which explains the origin of the sun and the moon as twin brothers who are raised by Ca'aj, the grandmother of the the Triqui people. After a number of trickster-like episodes, the twin rise into the sky and become the sun and the moon.

Versions of this story are found among many indigenous groups in Oaxaca. This version of *The Origin of the Sun and the Moon* was narrated in 2003 by Román Vidal López, originally from San Miguel Copala, Oaxaca, Mexico. This text is the longest version of the Sun and Moon legend so far recorded and it is notable for its use of traditional Triqui ethnopoetic style and for episodes not found in other stories. This work is also the longest analyzed text in the Copala Triqui language

ISBN 978 3 89586 459 9. **Languages of the World/Textcollections 30**. 100 S. USD 61. 2009.

INFORMATION FOR CONTRIBUTORS

LANGUAGE, the journal of the Linguistic Society of America, carries technical articles dealing with problems of linguistic science, reviews of recently published linguistic works, and notes of interest to professional linguists.

MANUSCRIPTS for publication, and exchange JOURNALS, should be sent to the Editor of LANGUAGE (Gregory N. Carlson, 502 Lattimore Hall, University of Rochester, Rochester, NY 14627-0096; language@rochester.edu). BOOKS for review should be sent to the Review Editor of LANGUAGE (Gregory Stump, Department of English, University of Kentucky, 1215 Patterson Office Tower, Lexington, KY 40506-0027; language-revs-l@lsv.uky.edu. Manuscripts of articles should be submitted in TWO ANONYMOUS copies; they will not be returned. An anonymized pdf and/or Word version of the paper should also be sent, either as an e-mail attachment or on a CD or diskette; such electronic submissions are NOT to be sent in place of hard copies, however. Authors should also send a brief (c. 250-word) abstract and a list of 5–7 keywords to language@rochester.edu. Normally at least one author of any article or review article submitted to LANGUAGE must be a member of the Society.

Manuscript form. Authors of articles submitted to LANGUAGE are not required to follow the LANGUAGE style sheet in preparing their manuscripts for initial submission to LANGUAGE. There is no restriction on the format of manuscripts, although authors should make their submissions as reader-friendly as possible. Any manuscript, however, that has been accepted for publication as an article will have to be revised so as to conform strictly to the LANGUAGE style sheet. For the complete style sheet, see the December LSA Bulletin, the LANGUAGE web page at www.lsadc.org/info/pubs-lang-style.cfm, or write to the editors. Please see the 'Notes to Contributors' on the LANGUAGE website for more information about the submission process (http://www.lsadc.org/info/pubs-lang-notes.cfm).

This policy does not apply to book reviews and book notices. These are all solicited by the Review Editor and they must adhere as closely as possible to the LANGUAGE style sheet on first submission.
