FOUNDATIONS OF ILLOCUTIONARY LOGIC

JOHN R. SEARLE and DANIEL VANDERVEKEN

The authors present the first formalized logic of a general theory of speech acts, dealing with such things as the nature of an illocutionary force, the logical terms of its components, and the conditions of success of elementary illocutionary acts.

TEACHING TALK

Strategies for Production and Assessment

GILLIAN BROWN, ANNE ANDERSON, RICHARD SHILLCOCK, and GEORGE YULE

The authors examine the way adolescents express themselves. In this examination, they concentrate on the discrepancies in language use between academically successful and unsuccessful pupils. They also suggest how teachers can help students to become more successful.

Hardcover, $18.95 Paperback, $8.95

EXERCISES IN ANALYSIS

IAN HACKING, Editor

This volume of original essays in analytical philosophy brings together leading philosophers on topics of current interest in ethics and the philosophy of logic and language. Topics include the making of wicked promises, G. E. Moore's early ethical views, as well as indexicals, tense, and indeterminism. *A representation of the "Cambridge" voice of philosophy.*

Hardcover, $39.50

PHILOSOPHICAL PAPERS

Volume I: Human Agency and Language

Volume II: Philosophy and the Human Sciences

CHARLES TAYLOR

A selection of the published papers of one of the most influential figures in contemporary philosophy. Starting from a general critique of naturalism (particularly in psychology and the philosophy of language), Taylor presents a more positive account of human agency and the self, the constitutive role of language and value, and the scope of practical reason.

N.E. Collinge: The Laws of Indo-European.

90-272-3530-9 xviii, 273 pp. $ 33.00
LC 85-9192 CIP

Three considerations have prompted this study. One is the simple lack of an explanatory catalogue of *all* the named laws of Indo-European history (which interlink in unsuspected ways). Secondly, false impressions of their provisions are rife; it is only too easy to succumb to pseudo-orthodoxies. Lastly, general theorists cite the laws by name — a great convenience — but as if their content were clear and their acceptance unquestioned. In fact most have been viewed with scepticism, and many are in danger of repeal. Here each law is given its original form and rationale, an evaluation of all major attacks, revisions and exploitations, and a full bibliography. Recent ideas — as of a new PIE consonantism — are given due weight.

This book presents a theory whose goal is to explain the recurrent properties of morphological systems in terms of the dynamic processes that create them. It reports on a cross-linguistic survey of verbal morphology in 50 languages, with special emphasis on inflectional *aspect*, *tense* and *mood*, and a critical evaluation of the notion "grammatical category".

The book also proposes certain principles of lexical organization that are based on facts about language universals, child language and historical change.

Linguistic signs are arbitrary: but the grammatical rules which collocate them are not. According to one influential school of linguistics, these grammatical rules reflect nothing other than properties of the human mind. The papers in this volume explore another hypothesis, that to some extent grammatical rules reflect properties of the world as we perceive it.

Handbook of Discourse Analysis
Edited by **T. A. VAN DIJK**

This broadly-based investigation of discourse phenomena is grounded on the idea that discourse understanding is strategic. The authors identify a set of discourse strategies that individuals use to form multilevel representations involved in discourse comprehension and memory.

Social and Biological Roles of Language
The Psychology of Justification
RICHARD TOTMAN
1985, 190 pp., $39.50/ISBN: 0-12-696080-1

This volume is an integrative theoretical exploration of the essential links between a person's social adaptation and his or her biological survival.

A Volume in the LANGUAGE, THOUGHT, AND CULTURE Series...

Semiotic Mediation
Sociocultural and Psychological Perspectives
Edited by ELIZABETH MERTZ and RICHARD J. PARMENTIER
1985, 416 pp., $49.50/ISBN: 0-12-491280-X

Many standard assumptions within the anthropology of meaning and symbolic studies are challenged in this volume by a theory which emphasizes the social context of "semiotic mediation." This exciting approach insists that careful analyses of how signs carry meaning be grounded in an understanding of social process, arguing for the inherently social or pragmatic nature of communication.

Connected Speech
The Interaction of Syntax and Phonology
ELLEN KAISSE
1985, 224 pp., $39.50/ISBN: 0-12-394720-0

The purpose of this book is to extend our knowledge of phonological phenomena that occur between words. **Connected Speech** brings together the growing literature on the subject, much previously unpublished.

Agrammatism
Edited by **MARY-LOUISE KEAN**
July 1985, c. 260 pp., in preparation/ISBN: 0-12-402830-6

This volume analyzes current research on acquired disorders of linguistic capacity, focusing on a specific disorder—agrammatism, a symptom of Broca's aphasia.

Cantares Mexicanos
Songs of the Aztecs

Translated from the Nahuatl, with an Introduction and Commentary, by John Bierhorst. Since its rediscovery in the 19th century, the codex *Cantares Mexicanos* has come to be recognized as the chief source of Aztec poetry and one of the monuments of American Indian literature. Here translated in its entirety for the first time, the text is accompanied by an extensive Introduction and a detailed commentary on each of the 91 songs. The songs are presented in a paleographic text of the original Nahuatl with facing English translations. Compiled by native scribes in the late 16th century, and preserving almost all known examples of Aztec music notation, the *Cantares* reenact battles, describe the effects of the Spanish Conquest, touch on Christian subjects, and even deal with transvestite and homosexual themes. $45.00

A Nahuatl-English Dictionary and Concordance to the *Cantares Mexicanos*
With an Analytic Transcription and Grammatical Notes

John Bierhorst. Based on the codex *Cantares Mexicanos*, this is essentially a companion volume to the author's translation of that work. The dictionary provides a virtually complete glossary of 16th-century Aztec poetic usage, including many definitions not found in the standard dictionaries of Molina and Siméon. Except for work in the field of poetry, where it can stand as a reference of first resort, the dictionary should be regarded as a supplement to Molina and Siméon. The concordance, together with the analytic transcription, enables one to trace each word, its cognates, and its synonyms throughout the *Cantares*. The volume also includes a skeleton grammar and a special concordance to *Cantares* vocables, or nonsense syllables. $65.00

THE JOINT: Language and Culture in a Maximum Security Prison *by* **Inez Cardozo-Freeman** *in collaboration with* **Eugene P. Delorme.** Named by *Choice* as one of the Outstanding Academic Books of 1984-1985, this volume correlates the life patterns of inmates with their language and vocabulary, thus illuminating both the importance of language to culture and the nature of prison society. An excellent glossary is included. *'84, $52.75*

ENGLISH SYNTAX: An Outline for Clinicians and Teachers of Language Handicapped Children (2nd Ed.) *by* **Charles H. Hargis.** Basing his approach on generative transformational grammar, the author explains the dependency on syntax of the other components of language and of school achievement. He concentrates on bringing to consciousness readers' implicit knowledge of syntactic structures and on showing how to apply such realized rules to the remediation of related problems in students. *'84, $29.75*

New! **PSYCHOLOGICAL ASPECTS OF LANGUAGE** *edited by* **Philip N. Chase** *and* **Linda J. Parrott.** Diverse, provocative articles explore theories of verbal learning, critique Chomsky's nativism, and analyze operant conditioning in relation to language. The differences between social and verbal behavior, the nature of intraverbal behavior, and the ethics of linguistic behavior modification also are examined. Examples of research into and applications of the psychological aspects of language round out the text. *Oct. '85, about $29.50*

New! **CULTURAL LANGUAGE DIFFERENCES: Their Educational and Clinical-Professional Implications** *edited by* **Sol Adler.** The contributors to this treatise advocate bidialectal/bicultural training programs in schools to help students develop proficiency in standard English. Articles address social dialects and literacy, the effect of social dialect on learning, and problems facing the dialect speaker. *'85, $24.75*

PUBLICATIONS

of the

Linguistic Society of America

LANGUAGE, the journal of the Linguistic Society of America, carries technical articles dealing with problems of linguistic science, reviews of recently published linguistic works, and notes of interest to professional linguists.

As supplements to LANGUAGE, the Linguistic Society of America issues a series of occasional publications, LANGUAGE MONOGRAPHS. These are included in the subscription price of the journal, but may also be purchased separately. In the LANGUAGE MONOGRAPH series, the Society publishes independently subsidized studies which are too long to appear as articles or are otherwise unsuitable for publication in the journal. The method of application for admission to this series of supplements, and the terms of publication, may be secured from the Secretary of the Society.

SPECIAL PUBLICATIONS in the field of linguistic science are issued by the Society from time to time. These are not included in the subscription price of the journal.

MEETING HANDBOOKS, which contain program listings and abstracts of papers presented at LSA Annual Meetings, 1965 onward, may be purchased separately.

A list of publications in print and a price list are available from the LSA Secretariat, 1325 18th Street NW, Suite 211, Washington, D.C. 20036-6501. Reprint editions and back copies may be ordered from Kraus Reprint Corporation, Route 100, Millwood, New York 10546, or Kraus-Thompson Organization, FL-9491 Nendeln, Liechtenstein, Europe. Prices for specific issues and/or volumes may be obtained from these addresses.
