Clays and Clay Minerals, Vol. 24, p. 213. Pergamon Press 1976. Printed in Great Britain

ANNOUNCEMENT

The 26th Clay Minerals Conference will be a joint meeting with the International Committee for the Study of Bauxites, Alumina and Aluminum. It will be held at Kingston, Jamaica, 14–20 August, 1977, and will be headquartered at the Sheraton Kingston Hotel.

In addition to general sessions, symposia will be held concerning Alternatives to Bauxite, Clay and Bauxite Genesis and Bauxite Red Mud.

Field trips are scheduled as well as special tours for the ladies.

Those planning on attending the Conference should make hotel reservations early, as reduced rates are possible if a sufficient number of early reservations are received.

Papers are invited and abstracts should be submitted in English before 30 March, 1977. They may be sent to:
