AUTHOR INDEX FOR VOLUME 114

ADLIFARD, M.; see HOSSEINI, S. A. 212
AHN, M. W.; A topology for Engel expansions: evaluation and digit coding maps 140
ALGHAMDI, M. M. A.; Multiscaling asymptotic behaviour of random fields that are solutions of stochastic partial differential equations 558
ALLU, V. and KUMAR, S.; The third Hankel determinant for inverse coefficients of convex functions 516
ANAGNOSTOU, L.; An algebro-geometric approach to volumes of moduli spaces of conical hyperbolic surfaces 380
ANNOR, D. Y. B.; Graph covers: topological and combinatorial perspectives 554
BALLESTER-BOLINCHES, A., KAMORNIKOV, S. F. and SHEMETKOVA, O. L.; A subgroup lattice of a finite soluble group 306
BARMAN, R., NARODE, A. and WAGH, V.; On the discriminant and index of a certain class of polynomials 475
BASSOM, A. P. and HOWLETT, P.; A note on the explicit analytic solution to a nonautonomous abstract evolution equation 117
BASTOS, R. and LIMA, D.; On maximal cyclic subgroups of finite groups 314
BECHER, M.; Burkholder's exit-time condition via proper maps: Smirnov regularity, Hardy–Orlicz criteria and torsion-type problems 370
BISITS, J. I.; Nonlinear controls on ocean circulation and mixing in the high-latitude oceans 384
BOUDABRA, M.; A note on the planar Skorokhod embedding problem 363
CAI, Q.; Noncongruent numbers of the form $2pq$ with $pq \equiv 5 \pmod 8$ 256
CARUSO, X., FÜRNSINN, F., VARGAS-MONTOYA, D. and ZUDILIN, W.; Galois groups of Apéry-like series modulo primes 65
CHARIZANOS, G.; Fuzzy logistic regression with triangular and Gaussian fuzzy numbers 382
CHEN, G.; see GAO, L. 287
CHEN, S.-Q. and DING, Y.; On a problem of Nathanson on nonminimal additive complements 6
CHINN, T., FENG, J., GARCIA, S. R. and JIANG, P.; Numerical semigroups from rational matrices IV: computation of the matricial dimensions of numerical semigroups with small Frobenius number or genus 333
DARSANA, N and ROUT, S. S.; Sums of terms of recurrence sequences and S-units in the solution sets of norm form equations 22
DENG, Q. and WANG, B.; Some disjointness results on the distribution of orbits along $\Omega(n)$ 464
DING, Y.; see CHEN, S.-Q. 6
FAN, G.; see JI, Y. 536
FENG, J.; see CHINN, T. 333
FLYNN-CONNOLLY, O.; Simplicial coendomorphism operads and coalgebras 271
FÜRNSINN, F.; see CARUSO, X. 65
GAO, L., LV, H. and CHEN, G.; On the relationship between the minimum irreducible character codegree and finite simple groups 287

https://doi.org/10.1017/S0004972725100889 Published online by Cambridge University Press

GARCIA, S. R.; see CHINN, T. 333
GUO, X.; see LI, X. 79
HASANALIZADE, E.; Upper bounds for infinitary harmonic numbers and infinitary harmonious tuples 221
HE, V. X.; Bayesian generalised additive model selection 210
HIBBLER, A., MCGOWN, K. J. and TREVIÑO, E.; Polynomial densities and Heilbronn's criterion 34
HONE, C.; Geometric extensions and the six functor formalism 557
HONG, S. F.; see LEI, W. Z. 455
HOSSEINI, S. A., ADLIFARD, M. and NIKANDISH, R.; The metric dimension of zero-divisor graphs of Boolean rings 212
HOWLETT, P.; see BASSOM, A. P. 117
HUANG, X., KANG, K. and WANG, S.; Min-phase-isometries on the unit sphere of L^1 spaces 149
ITO, T.; A slice Cromwell inequality for homogeneous links 182
IYER, S.; Gaps between hexagonal and square lattices 421
JI, Y., FAN, G. and SUN, N.; A free boundary model in river networks 536
JIANG, P.; see CHINN, T. 333
JIANG, S.; see SHEN, J. 127
JOSHI, V.; see WAGHMARE, P. 388
KALA, D. and SAHA, E.; On the zeros of certain linear combinations of Poincaré cusp forms 447
KAMORNIKOV, S. F.; see BALLESTER-BOLINCHES, A. 306
KANG, K.; see HUANG, X. 149
KOMINERS, S. D.; Simultaneous Niven numbers in arithmetic progressions for power-related bases 411
KUMAR, S.; see ALLU, V. 516
KUTZSCHEBAUCH, F., SON, T. N. and VINH, P. D.; On the injectivity of evaluation maps induced by polynomials on certain algebras 489
LEI, W. Z., YU, J. M. and HONG, S. F.; Proofs of lupu's conjectures for multiple zeta values and multiple *t*-values 455
LEWIS, M. L.; Kernels of Brauer characters and Isaacs' partial characters 300
LI, R., REN, W. and WEN, Y.; Expected length of the longest common subsequence of multiple strings 197
LI, S.-S.; see YAN, X.-H. 14
LI, X., WANG, J. and GUO, X.; On the normalisers of all non-*p*-nilpotent subgroups in a finite group 79
LI, Y.-M.; see YAN, X.-H. 14
LIMA, D.; see BASTOS, R. 314
LV, H.; see GAO, L. 287
MALLICK, P. and MISHRA, D.; Links between the solvability of matrix and scalar Diophantine equations 248
MATSUSHITA, S.-Y.; Projection algorithms for fixed point problems 160
