## A New Dictionary

**Morton Benson, Evelyn Benson & Robert Ilson:** ***The BBI Combinatory Dictionary of English: A Guide to Word Combinations.***
In attaining the status of the world's principal lingua franca and chief medium of international communication English has become the most widely spoken and written language in the world today. For all who are studying English, the achievement of proficiency in the basics — pronunciation, grammar, elementary vocabulary — is but the first step. Learners of English still face a formidable obstacle, i.e., a vast number of unpredictable, fixed combinations (or collocations) that are absolutely essential to the mastery of intelligent spoken and written communication.
**The BBI Combinatory Dictionary of English** is the first dictionary to give the major lexical combinations of English and to show the grammatical combinations of English in a clear, methodical manner. The learner can find which verb collocates with which noun, which adjective with which noun, what is British and what is American, and more.

## The Benjamins Paperback Series

"I need this book for my work, but the price is simply too high."
Every academic publisher has heard this kind of lament. It is a simple fact of economic reality today: a book that a scholar wants can cost more than a scholar can afford.
We cannot solve this problem, but here is something that will help: Announcing the *Benjamins Paperback* series. A selection of titles reprinted in a more affordable version—no book to exceed $20.00 in price.

**Vol. 1: Jacob L. Mey:** ***Whose Language: A Study in Linguistic Pragmatics.***
0-915027-60-7 ix, 412 pp. $ 20.00

**Vol. 2: N.E. Collinge:** ***The Laws of Indo-European.***
0-915027-75-5 xviii, 273 pp. $ 16.00

**Vol. 3: Ruth Wodak & Muriel Schulz:** ***The Language of Love and Guilt. Mother-daughter relationships from a cross-cultural perspective.***
0-915027-44-5 x, 247 pp. $ 15.00

**Vol. 4: Philip Luelsdorff:** ***Constraints on Error Variables in Grammar: Bilingual Misspelling Orthographies.***
0-915027-74-7 vii, 442 pp. $ 20.00

**Vol. 5: William Cowan & Jaromira Rakušan:** ***Source Book for Linguistics.***
0-915027-82-8 339 pp. $ 12.50

**No postage & handling with prepaid orders.**

## STUDIES ON GERMAN GRAMMAR

Jindřich Toman (ed.) 1985 452 pp.
**Pap. Dfl. 114,25/US $45.70** ISBN 90 6765 113 3

This collection, which contains 11 detailed studies on German syntax and word-structure, represents the most extensive contribution to the generative grammar of German so far published in English. Articles range from a general discussion of Chomsky's *Government & Binding* framework to case studies of particular phenomena. Among the issues discussed by the authors are questions of configurationality, verb movement, COMP-structure, case-assignment, expletive elements, as well as various problems of word-syntax.
The first part of the volume consists of syntactic studies including Hans den Besten's *The Ergative Hypothesis and Free Word Order in Dutch and German*, Hubert Haider's *The Case of German*, Jürgen Lenerz's *Diachronic Syntax: Verbal Position and COMP in German*, Susan Olsen's *On Deriving V-1 and V-2 Structures in German*, Henk van Riemsdijk's *On Pied-Piped Infinitives in German Relative Clauses*, Ken Safir's *Missing Subjects in German*, and Wofgang Sternefeld's *On Case and Binding Theory*.
Articles in the second part are concerned with problems of word-syntax. They include Gisbert Fanselow's *What is a Possible Complex Word?*, Tilman Höhle's *On the Constituent Structure of Secondary Words in German*, Marga Reis's *Against Höhle's Compositional Theory of Affixation* and Jindřich Toman's *A Discussion of Coordination and Word-Syntax*.

## GRAMMATICAL REPRESENTATION

J. Guéron, H.G. Obenauer and J.Y. Pollock (eds.)
1985 360 pp.
**Pap. Dfl. 86,—/US $34.40** ISBN 90 6765 116 8

This volume is represented as a sequel to *Levels of Syntactic Representation* edited by R. May and J. Koster (Foris, 1981). Like the earlier work, it grew out of a meeting of European linguists held in France, in this case at the Université d'Aix-Marseille, Luminy (January 1983). Just as the first volume was inspired by Chomsky's Pisa Lectures, the second is based on *Lectures on Government and Binding*.
As in the first volume, a variety of languages are examined, here Italian, Dutch, French, English, Danish, and Eskimo. This work thus joins the growing body of studies that bear eloquent testimony to the fact that generative grammar is not English-based but is truly universal in outlook.

## A UNIFIED THEORY OF SYNTACTIC CATEGORIES

Joseph E. Emonds 1985 360 pp.
**Bnd. Dfl. 86,50/US $43.25** ISBN 90 6765 091 9
**Pap. Dfl. 66,50/US $33.25** ISBN 90 6765 092 7

This study provides extensive empirical justification for a particular version of the bar notation. Some of the central characteristics of the system of categories argued for here include a universal verb phrase (VP) and a pervasive role for the category P as an "universal subordinator".

Certain other recently emphasized categories such as COMP and INFL are shown to be properly subsumed under P and Specifier (V), respectively, with the consequences that $\overline{S} = \overline{P}$ and that S is an "extra projection" of V.

Another innovation concerns the relation of VP and S; it is argued that gerunds are VP's but not S's, and that the distribution of gerunds follows entirely from a small but far-reaching revision in Chomsky's $\Theta$ - Criterion.

Other hypotheses argued for include the claims that "small clauses" should be uniformly analyzed as examples of a Williams-type predication, and that lexical and grammatical formatives are inserted at different levels in the grammar.

Moreover, a theory of abstract case is proposed which eliminates "inherent" case and which is dependent (though non-trivially so) on a particular theory of semantic role ("$\Theta$ - role") assignment. In this view, $\Theta$ - theory and not case theory is the locus of the fundamental difference between noun/adjective and verb/preposition.

## The Social Construction of Literacy

*Jenny Cook-Gumperz, Editor*

The volume examines literacy acquisition as a socially and communicatively based skill, not merely a cognitive process. The original methodological approach provides a fine-tuned analysis that increases our understanding of communicative interaction – including second language learning.
Coming in hardcover and paperback

## Variation in Australian English

The Sociolects of Sydney

***Barbara M. Horvath***

Horvath applies recent advances in sociolinguistic theory and methodology to Australian English, and takes account of the complex social changes that immigration has brought about in Australia's urban population.
*Cambridge Studies in Linguistics 45*
Hardcover $39.50

## The Urbanization of Rural Dialect Speakers

A Sociolinguistic Study in Brazil

***Stella Bortoni-Ricardo***

An investigation of how rural migrants linguistically adjust to an urban environment. The author carefully examines the historical and synchronic sociolinguistic background of the migrants and the changes that have taken place in their linguistic repertoire.
Hardcover $32.50

## Acts of Identity

Creole-Based Approaches to Language and Ethnicity

***R.B. LePage and Andree Tabouret-Keller***

The authors re-examine such concepts as "a language," "correct usage," "race," and "ethnic groups," and clearly reveal the complex role of language in establishing relationships with regional and social communities at the state or national level.
Hardcover $32.50

## Phonological Variation and Change

Studies in Hiberno-English

***John Harris***

An investigation of several areas in the study of language change, dealing particularly with questions of how patterns of pronunciation vary across both time and space. Most examples are drawn from nonstandard dialects of English, especially the varieties spoken in Ireland (Hiberno-English).
Hardcover $39.50

## La Langue Lua ('Niellim')

***Pascal Boyeldieu***

An examination, in French, of a hitherto neglected language spoken in the south of Chad by a Chari river people. Includes a detailed phonological description, and a classification of verbal derivations.
*Copublished with the Maison des Sciences de l'Homme.*
*Descriptions de Langues et Monographies Ethnolinguistiques*
Hardcover $69.50

## Young People's Dyirbal

An Example of Language Death from Australia

***Annette Schmidt***

The speakers of the "traditional" version of Dyirbal have died, and only some of their children and grandchildren speak a simplified version of the language. Schmidt analyzes the changes that have taken place in Dyirbal on the level of phonology, morphology, syntax, the lexicon, and semantics.
Hardcover $34.50

# Language Behavior in Therapy Groups

## RUTH WODAK

Wodak explores the dimensions of therapeutic discourse in a strikingly innovative study that combines socio-, psycho-, and textlinguistic methods of analysis. $32.50

# Wintu Dictionary

## HARVEY PITKIN

This 900-page dictionary is a companion work to the **Wintu Grammar** (1984) and to **Wintu Texts** (in preparation). It includes all the morphemes and lexemes collected during fieldwork, exemplifying utterances, ethnographic and stylistic remarks, references to grammatical analysis, internally reconstructed forms (etymologies), an English index, and a preface analyzing the extended semantics and history of a single morpheme which suggests a characteristic portion of the Native American Wintu world view. $40.00

At bookstores or call toll-free 800-822-6657.
Major credit cards only.

# Intonation and Its Parts

## *Melody in Spoken English*

**Dwight Bolinger.** "I don't mind what she said, but I don't like the way she said it." This common complaint obviously relates to forms of wordless communication, but especially to the use of intonation—the rise and fall of the pitch of the voice—to convey the speaker's mood. In this summation of over 40 years of investigation and reflection, the author analyzes the nature, variety, and utility of intonation, using some 700 examples from everyday English speech, presented much in the manner of musical notation. He looks at accent (pitch shift that stresses individual words) and overall configurations (melodies that shape the meaning of whole sentences) to show that most utterances draw from a surprisingly small stock of basic melodies, and that both intonation and visible gesture are parts of a larger complex that conveys grammatical as well as emotional information. $38.50

# Writing Systems

## *An Introduction*

**Geoffrey Sampson.** Writing plays nearly as central a role as speech in our lives, yet it has been almost ignored by 20th-century linguistics, apart from historical surveys of individual scripts. Rich in insights and highly readable, this book is the first in many decades to analyze the diverse ways in which spoken language is or has been represented by means of durable, visible marks in various cultures through the ages. The author offers a classification of the several logically possible types of writing, and goes on to discuss these types by examining in each case one characteristic script: Sumerian, Mycenaean Linear B, Ancient Hebrew, Graeco-Roman, Korean Han'gul, Chinese, and Japanese. A final chapter considers the special question of English spelling. Illustrated with some 50 diagrams and samples of alphabets and symbols. $35.00

## Linguistic Society of America

LANGUAGE, the journal of the Linguistic Society of America, carries technical articles dealing with problems of linguistic science, reviews of recently published linguistic works, and notes of interest to professional linguists.

As supplements to LANGUAGE, the Linguistic Society of America issues a series of occasional publications, LANGUAGE MONOGRAPHS. These are included in the subscription price of the journal, but may also be purchased separately. In the LANGUAGE MONOGRAPH series, the Society publishes independently subsidized studies which are too long to appear as articles or are otherwise unsuitable for publication in the journal. The method of application for admission to this series of supplements, and the terms of publication, may be secured from the Secretary of the Society.

SPECIAL PUBLICATIONS in the field of linguistic science are issued by the Society from time to time. These are not included in the subscription price of the journal.

MEETING HANDBOOKS, which contain program listings and abstracts of papers presented at LSA Annual Meetings, 1965 onward, may be purchased separately.

A list of publications in print and a price list are available from the LSA Secretariat, 1325 18th St. NW, Suite 211, Washington, DC 20036-6501. Reprint editions and back copies may be ordered from Kraus Reprint Corporation, Route 100, Millwood, New York 10546, or Kraus-Thompson Organization, FL-9491 Nendeln, Liechtenstein, Europe. Prices for specific issues and/or volumes may be obtained from these addresses.
