The Bedford Anthology of American Literature
Susan Belasco, *University of Nebraska-Lincoln*
Linck Johnson, *Colgate University*

Although far *less* hefty and expensive than other leading anthologies, *The Bedford Anthology of American Literature* has been widely acclaimed for its judicious and broadly representative selection of literature. At the same time, it does *more* than other anthologies to help students understand and appreciate the literature (through its innovative contextual features and unparalleled art program) and to help instructors design their courses (including a new literary reprint series for customizable packaging options and a unique DVD designed for classroom presentations).

"Unlike other textbooks, this one tells the truth about Hispanic linguistics. Here, for the first time, syntax, phonology, semantics, and pragmatics are introduced by means of contemporary models, not outdated approaches that practicing linguists gave up decades ago. It includes not only the basic facts, but also fascinating regional, social, and historical variation."
– John M. Lipski, The Pennsylvania State University
