Dagmar Herzog's

Sexuality in Europe

This discussion of Dagmar Herzog's *Sexuality in Europe* (2011) continues our new series of book fora. Herzog's new overview of changing European sexual mores and behaviour offers a jumping-off point for our panellists to discuss recent trends and future directions in the history of sexuality in twentieth-century Europe, East and West. Jeffrey Weeks (London South Bank University), Franz Eder (University of Vienna), Daniel Healey (University of Reading) and Victoria Harris (University of Birmingham) give their responses, and Herzog replies.
