Syllabification patterns in Arabic dialects: long segments and mora sharing – ERRATUM

Janet C. E. Watson

doi:10.1017/S0952675707001224. Published by Cambridge University Press, 16 October 2007.

On page 337 of this article, the final two sentences of the first paragraph should read as follows:

Thus, the model form /gilt-la/ 'I/you (MASC SG) told him' is syllabified in a VC dialect as [gilitla], in a CV dialect as [giltila] and in a C dialect as [giltla]. Kiparsky argues that the most basic typological division is between CV dialects on the one hand and VC and C dialects on the other.
