CAMBRIDGE JOURNALS

Discover the benefits of *WPSJ* on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online **journals.cambridge.org/wps-alerts**
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software

Members of WPSA who prefer online access should subscribe through the society website **www.wpsa.com**

CJOmobile (CJOm)

CJOmobile is now available and offers the following functionality:

- CJOm is optimised for smart phones and other small mobile devices. Mobile devices will be detected and automatically directed to CJOmobile
- If users sign up for content alerts, or save searches or articles, they are now available on the main CJO and vice versa
- CJOm offers increased speed and convenience for mobile users
- CJOm also functions as a faster access point for readers in countries with low bandwidth internet access

Rapid Plus breast deboner M3.0

TDS thigh deboning solution M1.0

WLD whole leg deboner M2.0

MEYN: TRUE SPECIALISTS IN DEBONING

A long track record of innovation and service has enabled Meyn to become the business partner for leading poultry processing companies in over a hundred countries. Nowhere is our forward thinking expertise more evident than in our highly advanced solutions for thigh, whole leg and breast deboning.

RESPONDING TO EVOLVING CONSUMER TASTES

More and more consumers worldwide prefer to purchase chicken products that have been deboned. So it's essential that you are able to debone the whole bird with ultimate speed and precision in order to create attractive and cost-effective offerings for the market. Meyn enables this with options that are at the forefront of deboning technology.

No product embodies our expertise in this area more than the widely installed Meyn Rapid Plus breast deboner M3.0. It makes possible the high-capacity (6,000 breastcaps/fronthalves p/h) harvesting of all fillet and tender products, enabling significant labor savings while processing in one setting.

But that's not all, because Meyn solutions can also debone thighs and legs to the same high standard with systems such as the Meyn TDS thigh deboning solution M1.0 and the Meyn WLD whole leg deboner M2.0.

Both of these options offer market leading capacity along with consistently excellent presentation and maximum yield.

To get the whole story about Meyn's commitment to deboning, go to www.meyn.com

XXTH WORLD VETERINARY POULTRY ASSOCIATION CONGRESS
Edinburgh 2017

WVPA XXTH CONGRESS 2017

4 – 8 September 2017, *EICC, Edinburgh*

The British Veterinary Poultry Association (BVPA) is delighted to host the 2017 Congress in Edinburgh, Scotland between 4 and 8 September 2017.

The Congress will attract a wide range of delegates including both poultry research scientists and practitioners and will include leading speakers from across the world. It is expected that delegate numbers will be in excess of 1200 visiting Edinburgh from over 70 countries joining together to explore the past, share the present and helping to forge the future of poultry veterinary science.

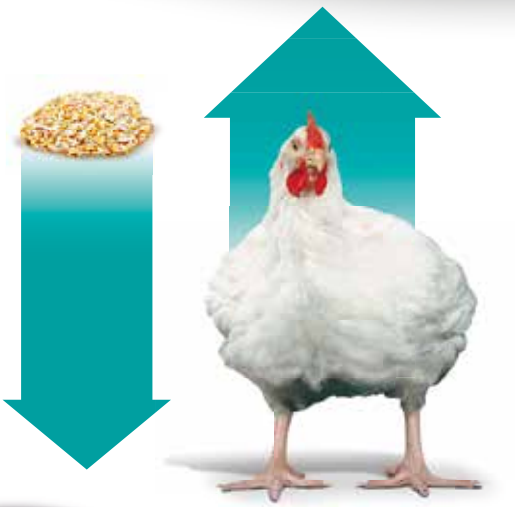

Registration is now open and if you register before 24 April 2017 you will be able to take advantage of the early bird rate.

For more information on the Congress and how to register please visit *www.wvpac2017.com*

LESS FEED, MORE MEAT.

LESS FEED – + MORE MEAT

Hubbard
YOUR CHOICE, OUR COMMITMENT

Feed cost represents over 70% of live production cost of a broiler, the highest levels in history. Hubbard offers the best products to save feed costs on breeder and broiler level.

- The "Feedsaver" concept of the JV and F15 breeders saves about 15% of feed to produce a broiler day-old-chick compared to conventional breeders.
- All Hubbard broilers have an excellent FCR compared to other breeds.

Just use less kg of feed to produce 1 kg of live broiler, 1 kg of carcass or 1 kg of total meat !

Hubbard is a company of
GROUPE GRIMAUD
Giving life to Performance

DEAR COLLEAGUES:

On behalf of the Spanish Branch of World's Poultry Science Association, I am pleased to invite you to participate in the 21st European Symposium on Poultry Nutrition (ESPN 2017) which will be held in Salou / Vila-Seca, Tarragona, Spain, during May 8-11, 2017.

This Symposium has become a relevant scientific event, stimulator of scientific interchanges, which take place every two years. The participation has been raised in the recent meetings, with an increase number of delegates from non-European countries. For the new event in Spain, we want to keep the scientific quality. The program will be focused on aspects such as thermoregulation, early feeding, precision feeding, ingredients and biotechnology and several hot topics. People attending the symposium will have an opportunity to know the recent advances in poultry nutrition, and will share and discuss their views among colleagues.

You will have also a great opportunity to know our culture within environmental Mediterranean conditions.

We will keep you informed about the evolution of our organization through our website (www.espn2017.es).

New event

FVG select 2017

FIAAP VICTAM grapas

13 – 14 JUNE 2017 · KOELNMESSE, COLOGNE, GERMANY

FVG Select 2017 is a **new event** which will be organized by Victam International BV. The event will focus on a series of **high quality** industry specific **conferences** and **matchmaking** with colleagues and clients from throughout these important industry sectors. The event will be complemented by an **industry expo** for a **select** group of companies.

THE CONFERENCES AND DELEGATE PROFILES

Tuesday 13 June

1. FIAAP ANIMAL NUTRITION
The use of specialist additives and ingredients used within the production of animal feeds.
Organizer: WATT Global Media
Delegate profile: Head and senior nutritionists, feed formulators, CEOs, directors, mill and plant managers from commercial feed production plants, integrators, specialist feed producers, etc.

2. AQUAFEED HORIZONS
Production technology and specialist ingredients for aquaculture feeds.
Organizer: Aquafeed.com
Delegate profile: CEOs, directors, mill and plant managers, head and senior nutritionists, feed formulators, integrators, specialist aquaculture feed producers, etc.

3. BIOMASS PELLETING
Production technology for the pelleting of bio-degradable materials for biomass pellets.
Organizer: AEBIOM (The European Biomass Association)
Delegate profile: CEOs, directors, mill and plant managers from biomass pelleting plants.

● A **cocktail party** on the evening of **Tuesday 13 June** will be organised for exhibitors and delegates.

Wednesday 14 June

1. PETFOOD FORUM EUROPE
Production technology and specialist ingredients for dry petfoods.
Organizer: WATT Global Media
Delegate profile: CEOs, directors, mill and plant managers, head and senior nutritionists, formulators from dry petfood production plants.

2. THE GLOBAL MILLING CONFERENCE WITH GRAPAS
Processing technology and additives used within flour milling and grain processing.
Organizer: Perendale Publishing
Delegate profile: CEOs, directors, mill and plant managers, nutritionists from flour mill, rice mills and grain processing plants.

3. VICTAM FEED PRODUCTION CONFERENCE
Production technology and equipment used within the animal feed production processes.
Organizer: University of Wageningen (WUR) and Forschungsinstitut Futtermitteltechnik (IFF)
Delegate profile: CEOs, directors, mill and plant managers, head and senior nutritionists, feed formulators from commercial feed production plants, integrators, etc.

THE INDUSTRY EXPO

There will be 9m^2 and 18m^2 standard shell scheme booths available during the two day event. The expo will take place in the adjoining hall to the conference rooms and will also be the venue for all the refreshments.

Thinking beyond equipment to deliver improved nutrition and health to your animals.

At Bühler, we understand not only the technology behind producing feed, but also the meaning of feed value for the animal. Our developments are heading towards a significant reduction of feed costs, while at the same time optimizing animal performance, health and welfare. With Bühler's latest developments, the hammer mill Granulex™ for high capacity grinding up to 75 t/h and the pellet mill Kubex™ T saving up to 20 % of energy, you make not only a safe investment into animal health and performance, but also into low production costs. At the end, Bühler pays off – both for animals and feed millers.
