JUST PUSH THE BUTTON. AND SAFETY IS THE FIRST OUTCOME.

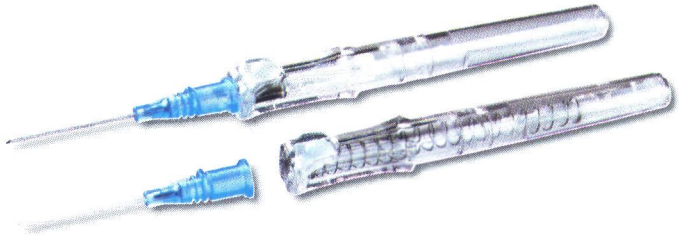

I N T R O D U C I N G

Insyte® AutoGuard™
SHIELDED I.V. CATHETER

Now automatic, push-button protection is at your fingertips. The new Insyte® AutoGuard™ provides advanced needlestick safety for you, plus the clinically superior performance of a Vialon™ biomaterial catheter for your patient. With just one touch, Insyte AutoGuard instantly encases the needle in a tamper-resistant, transparent safety barrel. It's simple and automatic, requiring little change in technique, so training is easy and OSHA compliance is accelerated. The clinically superior Vialon catheter reduces the risk of related complications to give you longer indwelling times. And the patented catheter tip of Insyte AutoGuard assures a smooth, easy insertion, reducing pain and trauma to your patient. Insyte AutoGuard helps safeguard you while enhancing vascular access outcomes. And all you have to do is push the button...only on the new Insyte AutoGuard. For more information, contact your Becton Dickinson Vascular Access Specialist at **1-800-453-4538**.

Solution: Who says you have to sacrifice comfort for protection? Introducing the KIMBERLY-CLARK® Impervious Comfort Gown.

1. The outside is quilted film for outstanding protection. The inside is soft fabric for comfort. The design is open-back with either thumb hooks or knit cuffs.

2. In use tests, staff found KIMBERLY-CLARK® Impervious Comfort Gowns to be cool and light. In fact, they'd even wear them when it wasn't necessary.

3. These gowns are a good choice if you want to standardize on one gown that will provide maximum protection with comfort in ICU, decontam, endoscopy and E.R.

4. While we're on the subject, Kimberly-Clark has a complete family of gown options designed to help you reach your desired outcome at the lowest cost-per-use.

5. Ask your Kimberly-Clark rep or call 1-800-KC-HELPS to receive a brochure on many of the infection control products available from Kimberly-Clark.
