Free New Service !

The Kluwer Academic Publishers Information Service KAPIS

Now available on-line: Kluwer Academic Publishers' complete books and journals catalogue.
Kluwer's new gopher server provides you with an easy way of staying up to date with our latest publications.

Information about all our publications is now available 24 hours a day world wide to everyone on the Internet. You can look up tables of contents (including those of forthcoming journal issues), titles, authors, descriptive texts, and bibliographic information. All publications can be searched for subject, keyword, title, author, series and publication date.

Furthermore, the service includes extensive information on submitting journal articles (Instructions for Authors, LaTeX stylefiles) as well as forms for ordering, requesting additional information or free sample copies.

This completely free service is available by gophering to:

GOPHER.WKAP.NL or IP-Number: 192.87.90.1

or via the World Wide Web at the following URL:

gopher://gopher.wkap.nl/
