Call for Artwork

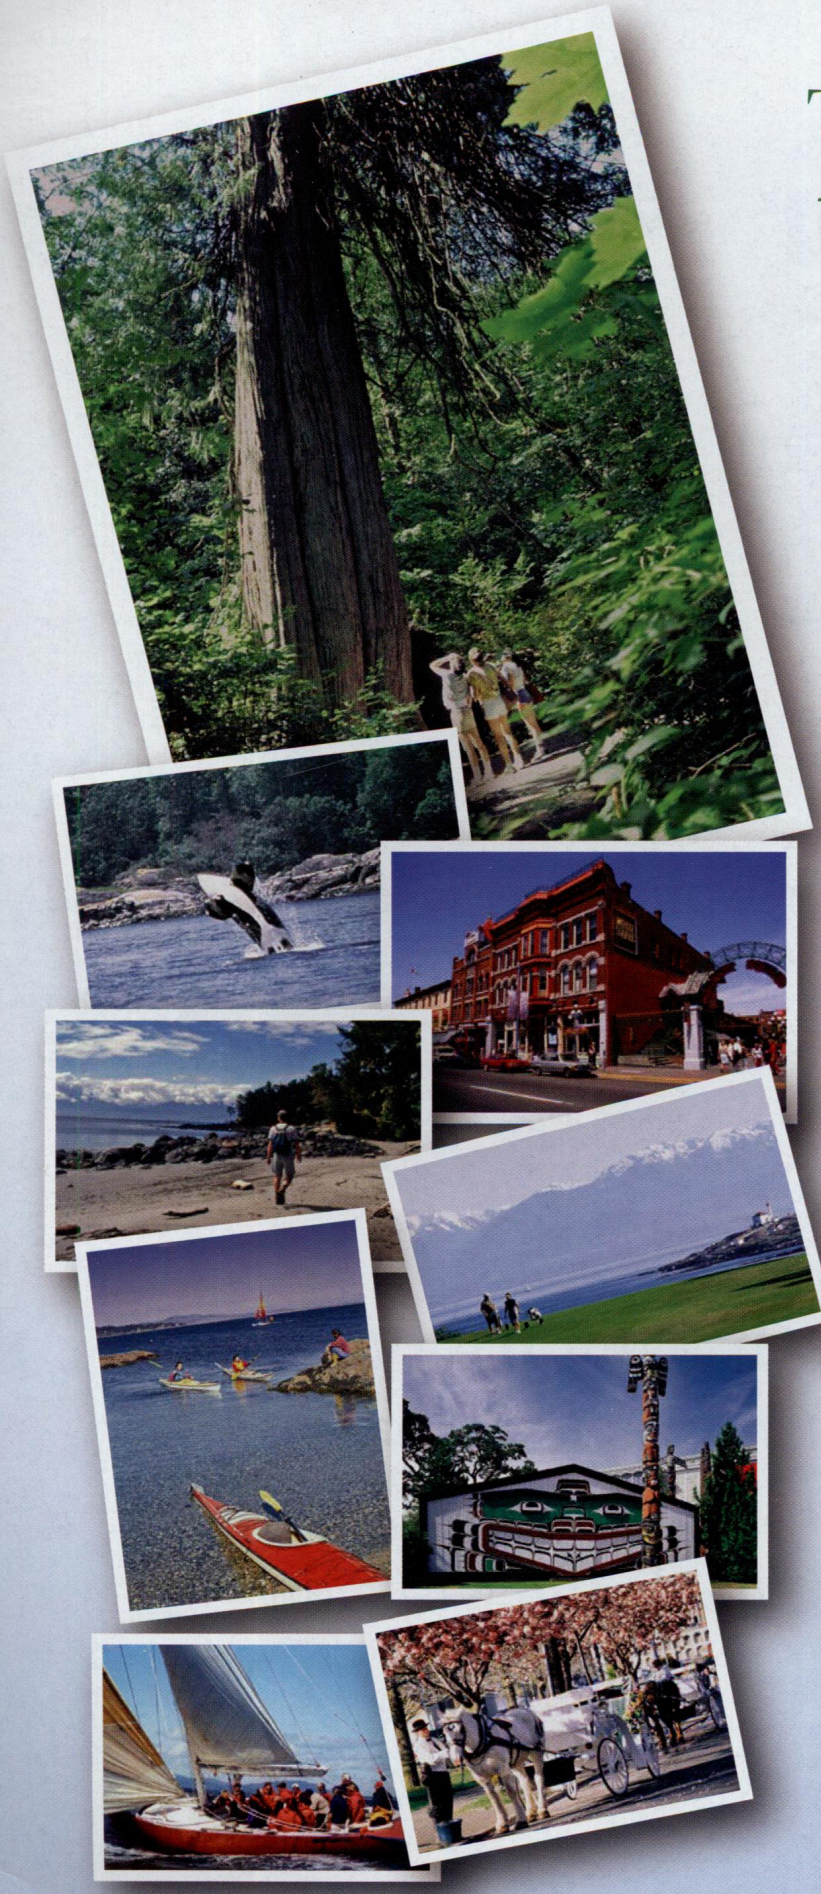

The cover design of *Prehospital and Disaster Medicine* calls for a photograph of relevant artwork.

If you have access to artwork that you think may be appropriate, please submit a high-resolution print or an electronic file (in TIF or JPG format) to:

Dana Schmidman, Editorial Assistant
3330 University Avenue, Suite 130
Madison, Wisconsin 53705 USA
E-mail: ds5@medicine.wisc.edu

All submissions will be evaluated by a panel of judges.
Items not selected will be returned to the sender.

The Best Reason to Visit Victoria, Canada

16th WORLD CONGRESS ON DISASTER AND EMERGENCY MEDICINE

Victoria, Canada
12-15 May 2009

10 other good reasons to visit Victoria:

1. In 2005 Vancouver Island was voted the sixth best island in the world
2. Victoria has breathtaking natural beauty coupled with a rich cultural history
3. Enjoy world class hotels and restaurants with our renowned friendly Canadian service
4. Victoria boasts internationally renowned salmon fishing, whale watching, sailing, hiking, and so much more
5. National Geographic Magazine has recognized Vancouver Island as one of the best cold water diving destinations in the world
6. Victoria has the mildest climate in Canada, average temperature in May is 16°C
7. Victoria is a 15 minute flight or short ferry ride to Vancouver, site of the 2010 Olympic Winter Games
8. Enjoy the wild beauty of the Pacific coast by booking a cruise to Alaska after your congress
9. Victoria offers a truly remarkable experience and escape from the rushed world
10. Vancouver Island has been named "Best North American Island" for the past 7 consecutive years by Condé Nast Traveler Readers.

The Fairmont Empress Hotel is the WCDEM 2009 host hotel.
The Fairmont Empress Hotel is attached to the Victoria Conference Centre, the location of the 2009 WCDEM Congress.

Bringing Simulation to Life

SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem [1,2].

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.
