ADVANCES IN ARCHAEOLOGICAL PRACTICE
A Journal of the Society for American Archaeology

Edited by Christopher D. Dore,
University of Arizona & ASM Affiliates, Inc.

A digital, peer-reviewed, quarterly journal focusing on methods, techniques, and innovative practice.

Advances in Archaeological Practice is a peer-reviewed journal that seeks to share solutions in the broad practice of archaeology. Launching in 2013, the full-color digital journal is published four times per year. The journal publishes original articles that present creative solutions to the challenges archaeologists face in the ways that they approach the archaeological record to learn about the past and manage archaeological resources. "Practice" is defined broadly and topics can include, but are not limited to, innovations in approach, technique, method, technology, business models, collaboration, compliance, process, ethics, theory, public engagement, and training. The journal is a benefit of membership in the Society for American Archaeology (SAA).

For author guidelines, editorial board, sample articles, and much more, please visit the journal's page on SAAweb (www.saa.org).
