ERRATUM

Gilbert, P., Birchwood, M., Gilbert, J., Trower, P., Hay, J., Murray, B., Meaden, A., Olsen, K. & Miles, J. N. V. (2001). An exploration of evolved mental mechanisms for dominant and subordinate behaviour in relation to auditory hallucinations in schizophrenia and critical thoughts in depression. *Psychological Medicine* **31**, 1117–1127. The authors wish to make the following correction to Table 3 (on page 1123). The value for Power of thoughts/Soc com (to others) should be −0·65** (not 0·65**, as printed in Table 3). In other words, the association is inverse, meaning that the more inferior (less superior) a depressed person feels, the more powerfully they experience their own critical thoughts.
