With the improved BARRIER* Laser Plume Face Mask, what you see is what you don't get.

In this cross-section of specially designed filter media, magnified **5000x,** the small dots you see are what you don't get: potentially dangerous laser plume particles as small as **0.1** micron,

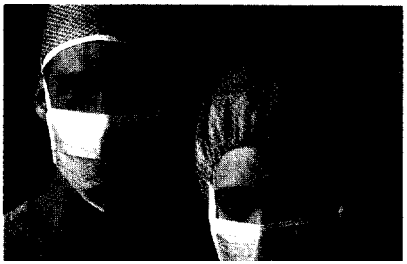

Filter media, magnified 10,000x

The improved BARRIER* Laser Plume Face Mask from Johnson & Johnson Medical, Inc. captures laser plume particles within its double middle layer of filter media, thus providing greater protection between you and potentially hazardous laser plume.

Filter media, magnified 5,000x

What you do get is breathability and a new distinctive color.

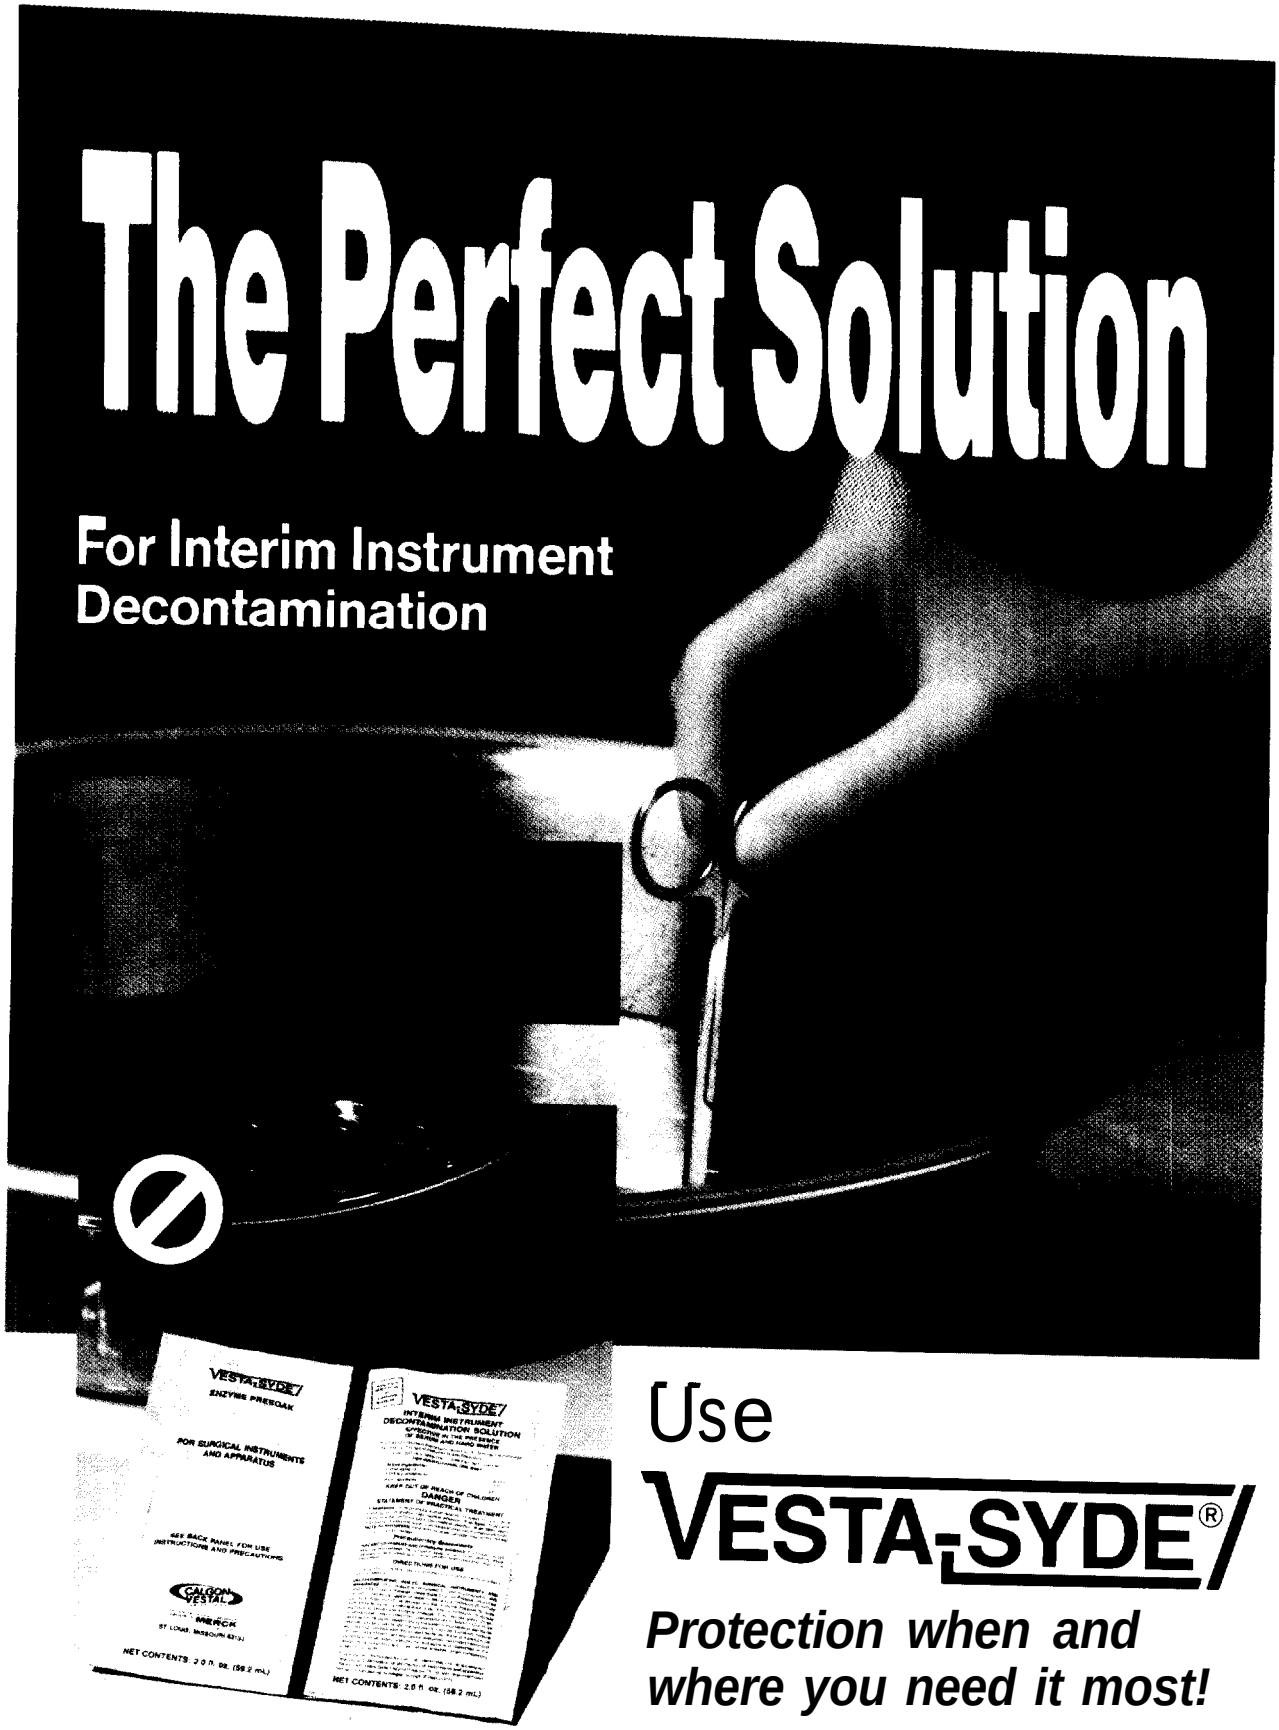

Put on **the** improved **BARRIER** Laser **Plume Face Mask and you'll breathe easier. Now get the superior personal protection you deserve. Ask**
