YOUR JOB CAN BE LESS OF A THREAT

"HANDS-OFF"

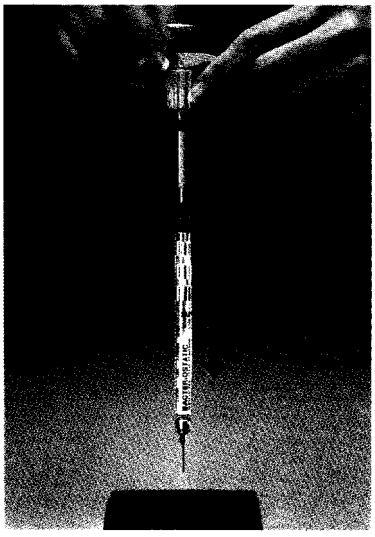

Tubex® INJECTOR

(closed injection system) Ayerst

TUBEX,® the unique, *safer,* hands-off injector that puts you farther from the needle and cartridge than any other injection system.

There's no touching.. .shaking.. manipulation of cartridge or needle. Just twist and drop.

Nurses preferred TUBEX almost 3:1 for the prevention of accidental needle stick injuries in a study comparing TUBEX Injector and Carpuject.®*[1] Which is one more reason to

adopt TUBEX- the injection system designed as if your life depended on it.

FARTHER FROM; THE POINT OF DANGER
